

Looking for Medical Volunteers for 2016 Medical Mission in China

The Children of China Pediatrics Foundation provides direct medical treatment for disabled children in China's orphanages. Since 1998, CCPF's all-volunteer medical staff has performed hundreds of life-changing operations on children during our medical missions to China. Our paramount goal is to improve the care of Chinese orphans and to educate the medical, surgical and nursing teams of our host hospitals with the latest treatment options and the basics they may have missed. Our surgical team consists of world leading orthopedics surgeon, Urologic surgeons and general surgeons, as well as a team of outstanding aestheticians, pediatrics and rehabilitation experts around America. In 2015 medical mission, we will go to NanJing and help local and provincial orphans. Our Team Leaders includes:

David P. Roye, Jr, MD, medical director of CCPF. Specializing in treating scoliosis, other spinal deformities, and performing hip surgery in adolescents. Continuously listed in America's Top Doctors by Castle Connolly rankings, Dr. Roye was the recipient of the American Academy of Orthopaedic Surgeons Humanitarian Award,

Heakyung Kim, MD, Dr. Kim is currently the Director of the Pediatric Physical Medicine and Rehabilitation Service and Professor of Clinical Rehabilitation Medicine and Pediatrics at the NewYork-Presbyterian Morgan Stanley Children's Hospital.
