In conjunction with the Chicago Medical Society,
The Chicago Urological Society Presents

Erectile Dysfunction

3/06/2019
University Club of Chicago

Keynote Speaker: Wayne J.G. Hellstrom, MD, FACS
Tulane University School of Medicine
Program Chair: William Lin, MD

This live activity is designated for a maximum of 4.50 AMA PRA Category 1 Credit(s)™

Target Audience: Urologists
Erectile Dysfunction
The management of erectile dysfunction was revolutionized by the introduction of phosphodiesterase 5 inhibitors (PDE5 inhibitors) in the late 90’s. Significant advances have been made in multiple areas of erectile dysfunction management over the last decade. The objectives of the program are to provide urologists with an update regarding the possible role of regenerative medicine in erectile dysfunction management, current interdisciplinary medical, surgical, and psychological therapy of erectile dysfunction, and the sexual health issues of sexual minority including transgender population.

DESIRED LEARNING OUTCOMES
At the conclusion of this meeting, the attendee should be able to:

1. Describe the emerging role of regenerative medicine in the management of erectile dysfunction
2. Discuss the advances of medical therapy in the management of erectile dysfunction
3. Discuss the advances of surgical therapy in the management of erectile dysfunction
4. Discuss the advances of hypogonadism management in the context of erectile dysfunction management
5. Discuss the advances of Peyronie’s disease management
6. Explore the issues regarding the sexual health of sexual minority, including transgender population
