PROPOSAL FOR THE ART ASSIGNMENT,  
[www.theartassignment.com/episodes/assignments/](http://www.theartassignment.com/episodes/assignments/)  
October 2016.

I propose that the person reading this proposal should imagine that  
their feet are in a mountain stream.

Peter Liversidge.

PROPOSAL FOR THE ART ASSIGNMENT,  
www.theartassignment.com/episodes/assignments/  
October 2016.

I propose to invite the reader of this proposal to assist further in Samuel Johnson's attempt to discredit Bishop Berkeley's theory of the non-existence of matter. Bishop Berkeley put forward the theory that there are no material objects, only the idea of those objects in our minds. It was not Bishop Berkeley's intention that it should just relate to visual perception but to perception in any of the five senses. When Samuel Johnson responded to this theory; of the non-existence of matter he did so declaring: ' I refute it thus ! ' as he spoke those words he kicked a large stone.

I request that the reader of this proposal leave their home, place of work and go out and find a stone. Once that stone has been located they should kick it back to the place they have just left. On the way taking one photograph of the stone where it is found, one on the way, and one once it has arrived to the place it has been kicked.

Peter Liversidge.
