MIST 2024 RULEBOOK

ASSALAMU ALAIKUM,

peace be upon you

In a world that is constantly grappling with uncertainty and change, our responsibility to advocate for equity and human rights is more important than ever. A new year invites growth, challenging yourself and for thinking about the kind of impact you want to have on the world.

We are at a unique point in history, where voices and actions travel further and faster than ever before. Listen, educate yourself, think critically and be a voice for those who have been silenced in Palestine, Sudan, Syria, Congo and so many more countries around the world.

Over the next few months, ask yourself: How can you as young leaders, contribute to a world that respects and upholds the rights of all? It's not just about grand gestures, but also small actions that build a more understanding and compassionate world.

Bismillah (In the Name of Allah). Let us begin this new MIST year with renewed intentions, hope and determination. May Allah Subhana Wa Ta'Ala guide our efforts, grant us wisdom to advocate effectively and help us make a lasting difference. Ameen.

Sincerely,
Meshall Awan
National Competitions Director

THE TREASURE OF FELLOWSHIP

From Fragrance to Fortress

A fundamental shift in society has occurred in recent years, emphasizing individualism and cold digital interactions. However, as humans are social creatures, it is crucial to recognize the significance of authentic connections among ourselves. Creating connections and building fellowship and companionship hold a significant place in the teachings of Islam. It is not merely a casual social relationship but a profound and spiritually uplifting bond based on compassion and virtue. In Islam, friendship is viewed as a divine gift that can guide individuals on their journey toward spiritual growth and righteousness.

We are reminded to choose our companions wisely as the connections we make impact our character and conduct, as the Prophet, peace and blessings be upon him, said, "The quality of good company and that of bad company is that of the owner of musk and of the iron smith, and the owner of musk would either offer you free of charge or you would buy it from him or you would smell its pleasant odor, and so far as the iron smith is concerned, he would either burn your clothes or you shall have to smell its repugnant smell" ([Muslim](#)). We need to reflect deeply on our own actions as well to see if we uphold the values we wish to see in others, to treat people with respect and kindness, whether they share the same faith or not. If not, we may become isolated and lonely. This is a condition that affects far too many people and has been deemed a public health priority by the U.S. Surgeon General, [Vivek Murthy](#).

A genuine bond is built when one is sincere in their intentions, loyal in their actions, advises one another through compassion, and is trustworthy in their words. As Muslims, we are encouraged to hone these attributes out of love, as the Prophet, peace and blessings be upon him, narrated that "None of you truly believes until you love for your brother what you love for yourself" ([Ibn Majah](#)). This love is a powerful force that inspires people to do the most amazing acts of kindness and empathy for each other, no matter how large or small these acts may be. This love further strengthens our bonds to one another, as the Prophet, peace and blessings be upon him, related to his companions, "The believers in their mutual kindness, compassion and sympathy are just like one body. When one of the limbs suffers, the whole body responds to it with wakefulness and fever" ([Muslim](#)). By embodying these values in our relationships, we can then truly support and assist those closest to us.

How do you cultivate and maintain your ties with others? How do you define friendship? In moments of competing interests, how do you provide counsel to those closest to you? How do you help them? How do you know that those around you bring a positive impact to you? Do you bring a positive influence to those close to you? Do you love for your brother or sister what you love for yourself?

We encourage you to creatively explore these concepts and more in Regional and National competitions and workshops during MIST 2024. Remember that unique projects displaying creativity and insight will be judged most favorably.

10. Parliamentary Debate topics will be announced in a random order and are available at www.getmistified.com/rulebook.

DEBATE STRUCTURE

Speaker	Roles and Debate Order	Time (Minutes)
Prime Minister (PM)	Constructive Speech + Rebuttal	7
Leader of Opposition	Constructive Speech + Rebuttal	7
Crown Minister	Constructive Speech + Rebuttal	7
Member of Opposition	Constructive Speech	7
Prime Minister	Rebuttal	3
Leader of Opposition	Rebuttal	3

PM Constructive Speech (7 minutes):

- Has the Burden of Proof and must show why the government side must be adopted.
- Introduces resolution, defines major terms, presents the basic government case (position) along with three or more constructive points (reasons) in favor of the House adopting the resolution.

LO (7 minutes)

Constructive Speech:

- The LO presents a new independent argument relating to the case. Outlines why the government case is flawed/wrong.
- Refutes the government case, explaining why the solution won't work or why the problem does not actually exist.

Rebuttal:

- Introduces new Opposition rebuttal points (specific additional reasons raised by the Opposition for why the Government case is wrong).
- The LO may also pose questions to the Government. Questions may be asked for clarification, or meant to corner opponents (not rhetorical).
- Government may not ask questions during this section, and may freely choose to answer or refuse to answer specific questions.

CM (7 minutes)

Constructive Speech:

- Brings forth additional one or two arguments supporting the government.
- The CM rebuilds the Government position and the original points introduced by the PM.

CM Rebuttal:

- Goes through the points presented by the LO and rebuts them.
- The rebuttal should challenge the assumptions, and challenge the premises made by the Opposition.

MO (7 minutes)

Constructive Speech:

- Brings forth the bulk of the opposition arguments, introducing 3 or 4 points.
- The MO rebuilds the Opposition position and reconstructs the points introduced by the LO.

PM Rebuttal (3 minutes):

- Rebuild critical aspects of Government case and sum up entire debate by showing why the Government has won the debate.

- No new evidence or arguments may be presented here.

LO Rebuttal (final 3 minutes):

Offers a rebuttal to the Government, summarizes the Opposition side and restates the Opposition points. No new evidence or arguments may be presented here.

Special Feature – Points of Information

- Points of Information (POIs) are a unique feature of Parliamentary Debates.
- POIs are opportunities for debaters to rise during the opposition’s speeches and offer a question or comment.
- To receive permission to present a POI, a debater must say “Point of Information” and place one hand on his/her head with one hand held out palm up.
- The speaker then knows the debater is interested in stealing the floor and may decline this request by waiving the individual down or saying “No thank you”.
- The POI can be used to clarify something or point out a flaw or contradiction in the speaker’s argument or make a comment that will link to something the opposition will discuss later. POIs must be kept very brief and to the point (5-10 seconds).
- Only 2 POIs can be offered during any speech.
- POIs cannot be offered during the first and last minute of constructive speeches. No POIs may be offered during the last two speeches.
- The entire final LO and PM rebuttals are protected and POIs cannot be offered during this time.

The Speaker

- The Speaker acts as the timekeeper and introduces each debater before speaking.
- Before beginning, the Speaker will write the exact resolution and the names of debaters in their speaking order on a blackboard clearly visible to all judges.
- The Speaker will also flip a coin to determine which team will represent the Government and which will represent the Opposition.

The Speaker’s Script is presented below:

“The House will come to order. I am pleased to welcome you all to this _____ round.
 The topic under debate today is “Be it resolved, that _____
 On my right, representing the Government, are:
 The Prime Minister: _____ and The Crown Minister: _____.
 Speaking for Her Majesty’s Loyal Opposition will be:
 Member of the Opposition _____ and The Leader of the Opposition: _____.
 On behalf of the House, I extend a special welcome to our Judges:
 _____, _____, and _____.
 I, _____, am your Speaker. The Government and Opposition will now be allowed five (5) minutes to prepare their cases.”

Note: Five (5) minutes of preparation time must be given before proceeding.

1. After the Prime Minister's Speech, the speaker shall say: "I thank the Prime Minister for his/her remarks. We shall now hear the Leader of Opposition."
2. After the Leader of Opposition Speech, the speaker shall say: "Thank you for your remarks. I now call upon the Crown Minister to deliver his/her speech."
3. After the Crown Minister's Speech, the speaker shall say: "Thank you. A speaker for the Opposition will now deliver a speech opposing the Bill."
4. After the Member of the Opposition's speech, the speaker shall say: "I thank the member of the Opposition, and now call upon the Prime Minister to present the Government's final rebuttal. During this final rebuttal, no new arguments may be made."
5. After the Prime Minister's Speech, the speaker shall say: "Thank you. The Leader of the Opposition will now deliver the last speech opposing the Bill."
6. Finally, the speaker shall say: "On behalf of the House, I thank the Judges for their assistance; I congratulate all the debaters on their performances; and I thank the members of the House for their attentiveness. Since this debate is now concluded and there is no other business on the Order Paper, the House stands adjourned."

Judging Criteria

1. Organization: The speech should be well structured, logical & coherent, containing an effective introduction and conclusion.
2. Evidence/Logic: Facts, statistics & authorities offered in support of contentions must be sound.
3. Credit should be given for thorough and relevant research.
4. Delivery: Poise quality & use of voice, combined with emphasis, variety and enunciation.
5. Effectiveness and ease of gestures, and eye contact should be assessed.
6. Refutation/Clash: The ability to apply logic and evidence in refuting the opponents' contentions while defending your own.
7. Format: Does each debater demonstrate an understanding of parliamentary procedure & adhere to the rules of the house? Are points of order & privilege appropriately used?

Note to Judges and Competitors:

1. Due to the structured and formal nature of Parliamentary Debates, judges and competitors are required to be careful listeners, tracking each statement and argument, and weighing each piece of evidence in lieu of the topic.
2. Judges will be required to follow each team's arguments very carefully, making special note of what they present, how they respond to their opponents, and how effectively their statements and evidence drive home the arguments that they are attempting to make.
3. The end goal of debate is ultimately to decide which of the teams presented the most compelling arguments, and put up the best defence against their opponents' arguments, not only the quality of the delivery.
4. Judges will take all factors into account, and offer their grading on a holistic level, making sure never to allow personal biases or predispositions concerning the debaters or the topics to impact their ruling.

Note to Organizers and Competitors:

1. Reminder: Only the top 4 teams from debate may qualify for the National Tournament.
2. Regions are asked to hold a 3rd place match concurrently with the final match, so that the semi-finalists are guaranteed 2 matches each. With this addition, the third rank will be determined more fairly. (One finals match to determine first and second place, and one third place match to determine third and fourth place).

9. Given the points A (1,-3) and B (-5,11), find the equation of the line perpendicular to the line segment AB which crosses at the midpoint of AB. (2)

Example Geometry Questions:

1. Find the distance between the lines $y = 3x + 4$ and $y = 3x - 5$ and give the equation of the line perpendicular to $y = 3x + 4$ which crosses the point (2,1). (2)
2. Given a 45-45-90 triangle with the height of 5cm, find the hypotenuse of the triangle. (0)
3. If $f(x) = 2x + 8$ and $g(x) = \frac{x}{2} - 4$, then find the point of intersection of the two lines algebraically. (1)
4. Given a 30-60-90 triangle, if the length of its smallest side is 4 cm, then find the length of the height and the hypotenuse of the triangle. (1)

Example Graphing Questions:

1. Solve and graph the function $3 \geq |x + y|$ using complete solution curves. (2)
2. The equation, where y is a function of x , has the following coordinates. Is the equation a function? Explain. (1)

Y	X
1	3
2	3
3	4
4	5

3. Does there exist a cubic* function which is even? (1)
 - a. Cubic in this case means that does there exists any constants a , b , c , and d , where the function $ax^3 + bx^2 + cx + d$ will be an even function given $a \neq 0$.

Example Algebraic Formulas and Method Questions:

1. Simplify* the following expression: $\frac{k}{2+\sqrt{3}}$ (1)
 - a. *Remember simplifying an expression means to annihilate any radicals in the denominator and leave any radicals in the numerator in simplest radical form.
2. Simplify* the following expression: $\frac{k}{2+\sqrt{3}-\sqrt{7}}$ (3)
 - a. *The question simply wants to know if you are able to remove all radicals in the denominator. Therefore for the sake of time conservation you may leave the numerator not simplified.
3. Simplify the following expression: $\frac{x^3+5x^2+6x}{x^2+2x}$. (1)
4. Find the roots of the function: $y = x^2 + 10x + 5$ (1)
5. An arrow is shot which reaches the height of 10cm and lands 5cm away from the shooter. If all else equals* find the formula of the quadratic equation which best represents the path of the arrow. (2)
 - a. *The term "if all else equals" simply means that all other variables are held constant. For example wind speed and other variables will not affect the question.
6. Hamza scored a grade of 79 and 92 on his first two tests. What is the minimum score Hamza needs on his next exam to achieve a final grade of 90? Assume all exam grades are weighted equally. (1)
7. Find the middle term of the expansion $(2x + 3)^6$ (2)

2. If $\log_5 64 = n$ then find n . (0)
 - a. *This problem may deserve a level of (1) in difficulty, but in this case the answer should be observably trivial after completing one step, thus given a rating of (0).
3. Simplify* the expression: $\log_3 3^3 \sqrt[3]{81} - \log_5 27^{-6} + 3\log_5 9$. (3)
 - a. *Simplification of log expressions could in this case mean combining the logs.
 - b. However doing that would be extremely messy and deserving a rating higher than a (3). Rather, solve this expression such that you have an answer with no logs, thus a quantitative result.
4. Find the range and domain of $y = \sqrt{x+2}$. (0)
5. An automated tennis ball dispenser dispenses 45 ball per minute. If an automated baseball dispenser dispenses baseballs 20% faster than the tennis ball dispenser, then how fast does the baseball dispenser dispense every hour? (1)

MIST QUIZ BOWL

Format: In-Person

Registration Guidelines:

1. Teams will consist of a minimum of two (2) members and a maximum of six (6). At any given time, only a maximum of four (4) students can play. A student can substitute for another student **ONLY** between rounds.
2. If your team has six (6) students, there will be four (4) starters and two (2) people on the bench.
3. Tip: the more students you have on your bowl team, the better it is for your team.
 - a. This way, each student can study one of the six scholastic bowl categories.

Preliminary/Quarterfinals/Semifinal Round Procedure:

1. A preliminary/quarterfinals/semifinal competition consists of three rounds, with a total of 42 questions.
 - a. A round consists of 7 questions each from 2 categories, with a total of 6 categories covered by the end of competition.
 - b. Questions for the entire competition are printed in one packet, with each round clearly marked - Appropriate point values are pre-assigned.
2. Each tournament will have three (3) preliminary rounds, one (1) quarter final, one (1) semi final, and one (1) final round.
 - a. Elimination for preliminary rounds will only take place after all three rounds are completed.
3. Each team is allowed 6 members, with no more than 4 members participating per round.
 - a. Teams are allowed to shuffle their players **ONLY** between rounds.
 - b. Judges will announce which two categories are being played in each round so that each team may arrange itself accordingly.
4. In the case questions are challenged, after the round concludes, judges will use their discretion and deliberate before points are awarded or deducted.

Round One

The competition begins with the judges explaining the rules of Round 1 to the competitors. Judges will tell the teams which two categories are represented in Round 1.

1. This round begins with the judge reading the point value of the question first, and then proceeding to read the question aloud.
2. Only after the judge has finished reading the **entire** question and says "Done" may the competitors buzz in.
3. The "Done" rule will only be applicable for Round 1, and will be dropped for the rest of the rounds.
4. If a team buzzes in before the entire question is read, then they will not have the opportunity to answer that question.
5. It is up to the judges' discretion to select whether or not teams have adhered to the done rule.
6. The first team to buzz in after the judge has said "Done" must begin to answer within 10 seconds and must finish answering within 30 seconds. This means that you have a total of 30 seconds to provide a complete answer.
7. If judges suspect that you are stalling on a question or are "buying time," they have the right to penalize you accordingly.
8. A correct answer wins points and an incorrect answer does not penalize the team. If an incorrect answer is given, then the floor is reopened once the judge has said "incorrect."
9. The question may now be answered by the next team to buzz in for half of its original point value, with a 10 second limit given on the response.
10. Teams can buzz in as soon as buzzers are reset or they can wait for the judge to read the question again.
11. Only two teams can attempt to answer any single question, after which, if both teams are unsuccessful, the judge

will give the answer and proceed to the next question.

12. The entire round consists of 14 questions from two categories. Scores will not be released to the competitors after the end of any round.

Round Two

1. This round follows with the next two categories of questions as they are listed in the packet. The topics will be announced at the beginning of the round by the judges.
2. The rules for Round 2 are identical to the rules in Round 1, except the “Done” rule will be dropped for Rounds 2 and 3.
3. Judges will read the point-value of the question first, and then proceed to read the question.
4. If a competitor believes that they can anticipate the answer of the question being read, they may buzz in early and answer the question.
5. If the student interrupts the moderator to give an answer, the student should immediately give the answer.
6. The competitor must respond within the 10 second limit of buzzing in, and if incorrect, the question will be opened to the floor for all other teams.
7. Teams can buzz in as soon as the judge announced a teams answer is wrong, or they can wait for the judge to read the question again.
8. In this round, incorrect answers are penalized. For example, if a team were to respond incorrectly to a 70 point question, then 70 points are deducted from their running total.
9. When the floor opens for other teams to steal the question, the question point values are halved. Using the example from before, if a team stole a 70 point question, they would be awarded 35 in the case of a right answer and would have 35 pointts deducted if they answered incorrectly.

Round Three

1. Round 3 then follows in the same fashion as Round 2: incorrect answers are to be penalized.
2. Judges will mention which two categories are being represented in Round 3.

General Point Summary

Round	Initial Point Value	Second Attempt Point Value	Penalty	Time to Answer
1	Stated before each question	½ of initial point value	No	10 seconds per attempt
2	Stated before each question	½ of initial point value	Yes	10 seconds per attempt
3	Stated before each question	½ of initial point value	Yes	10 seconds per attempt

Final Round Procedure

1. The finals competition consists of three rounds, with a total of 42 questions. Questions for the entire competition are printed in one packet, with each round clearly marked.
 - a. Round 1 and round 2 consist of one question related to each category printed in one packet, with each round clearly marked.
 - b. Round 1 and round 2 consist of one question related to each category, thus there are six questions per round.
 - c. In round 3, questions will proceed jeopardy-style with each team captain choosing the category and point value.
2. Each team is allowed 6 members, with no more than 4 members participating per round. Teams are allowed to shuffle their players ONLY between rounds.
3. To begin the competition, judges will explain the rules of Round 1 to the competitors.
 - a. This round is free-form, with the judge reading each question aloud.

- b. Only after the judge has finished reading the **entire** question may the competitors buzz in, which will be signaled by the judge saying “Done.”
 - c. If a team buzzes in before the entire question is read, then they will not have the opportunity to answer that question.
 - d. It is up to the judges’ discretion to select whether or not teams have adhered to the done rule. The first team to buzz in must answer within 10 seconds.
 - e. A correct answer wins points and an incorrect answer does not penalize the team. If an incorrect answer is given, then the floor is reopened once the judge has said “incorrect.”
 - f. The question may now be answered by the next to buzz in for half of its original point value, with a 10 second limit given on the response.
 - g. Only two teams can attempt to answer any single question, after which, if both teams are unsuccessful, the judge will give the answer and proceed to the next question.

- a. This is a gender-segregated competition. As such, each school may bring a brothers' team (consisting of a maximum of six brothers) as well as a sisters' team (consisting of a maximum of six sisters).
- b. This competition is a team effort. Teams may consist of a minimum of four (4) members and a maximum of six (6) members.

Overview

Improv, short for improvisation, is a performance that features spontaneous, unscripted elements. Playing improv games improves teamwork and teaches actors intuition, self-confidence and listening skills. This competition is done live in front of the judging panel. Depending on your region, there may also be a live audience.

Competition Structure

1. The Improv competition will consist of 3 separate rounds, with 2 competitions (games) played per round.
2. Preliminary: All registered improv teams are permitted to perform in this round, and each team will be given an opportunity to play 2 games.
 - a. The combined scores for both games should be calculated out of 100 points, and the top 4 teams with the highest ranked scores will be allowed to advance to the semifinal round.
 - b. In the event of a score tie, judges should exercise unbiased discretion as to which team should advance.
3. Semifinals: Only the top 4 advancing teams from prelims are permitted to compete in this round.
 - a. A total of 2 games between each team will be played, with a 3rd game allowed only if time permits.
 - b. The scores from each game should be calculated out of a total of 100 points and the higher scoring team will be allowed to advance to the final round.
4. Finals: For the last remaining 2 teams, a total of 2 games between each team will be played, with a 3rd game allowed only if time permits.
 - a. The final game will be scored out of 100. The scores from each game should be combined and the higher scoring team will be awarded 1st place.

Note: In the event that 4 teams or fewer register for Improv, one or more rounds can be skipped depending on the number of teams registered. Rankings should be determined by an average of all of the game scores achieved by each team.

Procedure:

1. MIST ID and order of competition will be pre-assigned on a random selection basis.
2. Competitors shall report at the appropriate time to the designated place. Competitors shall be introduced to the judges by their MIST IDs.
3. This competition consists of three (3) rounds with two (2) games each.
 - a. Each team will perform the first game, and once all teams have performed, teams will move on to the second game.
 - b. At the end of each game, judges will take a moment to write their scores, and they will also be allowed 2 minutes per team to ask questions if necessary.
 - c. Then, the subsequent game will begin.

4. All teams will have equal playing time, and they will all play the same games.
5. This competition will be moderated by a host.
 - a. The host will make introductions, announce the rules and explain the game.
 - b. The rules for each game will differ. Examples of improv games can be found on <http://improvcyclopedia.org>
6. An example of the format is as follows:
 - a. The host will begin by naming the game.
 - b. The rules and guidelines for the game will be read out loud, with the limit of players, prep time and presentation time. Ex. "The limits for this game are: Three (3) players, 30 second prep time and a two (2) minute presentation. The game will finish when the buzzer sounds."
7. The host will then randomly pick a team to come up to the stage.
 - a. The team will be asked to pick one situation out of a hat and must follow through with the situation picked.
8. Teams must adhere to the time limit.
9. If a team violates any of the game rules, a judge will sound the buzzer.
 - a. Alternatively, the buzzer will sound once time is up. Once the buzzer has sounded, all players must stop their performances, and exit the stage.
10. Once a team has presented, the next team will be called up to the stage to play the same game, but with a different situation.
