

Name – March 2018

This Location Summary lists the locations that Wolfram discussed with you during your consultation, which includes your most supportive locations as identified by Wolfram, your current location and any locations you asked about in advance of your consultation.

Note: If you asked about a location during the consultation, it will not be on this list because it was delivered extemporaneously during the call (you will need to relisten to the recording).

Each location is listed along with a grade (A to F like in school), the region that would share in this grade (if applicable) and Wolfram's summary of the energies. The locations Wolfram selected for you are supportive for your entire lifetime. If temporary influences exist over the next 2 to 3 years, he would have discussed those with you in the consultation.

Each location will support specific aspects of life (career, relationships, health, home, etc.). Having said that, we find that when you live at a supportive location, the support you receive raises your overall confidence and radiance and energetically all aspects of life are improved.
