Reflective Highway Sign Blanks

.080 Aluminum, Rounded Corners.
Special Order Item - Shipping Charges Apply.

Mill Finish is the natural finish of aluminum.

Engineer Grade reflective sheeting typically meets ASTM D4956 Type 1 standards and is an enclosed film or lens using glass beads or prismatic optical technology. This material is specified for use on non-critical street and road signs such as parking signs or way-finding signs.

HIP (High Intensity Prismatic) sheeting meets ASTM requirement standards for D4956-09 Type III and Type IV, as well as ASTM 4956-07 Type X. It is a non-metallized micro prismatic lens reflective sheeting that is used mainly for reflective traffic and road signs, barricades or other road construction zone devices, and traffic delineators such as cones or barrels.

DG3 (Diamond Grade) sheeting is a full cube prismatic reflective sheeting that returns almost 60% of the available light to vehicle drivers which is about double what HIP reflective sheeting reflects. DG3 reflective sheeting meets the specifications of ASTM Type XI standard. It is likely with pending legislation in the US, that this material will be required to replace many existing signs. Currently all new "critical" traffic control signs (such as Stop signs, speed limit signs, etc.) are required to utilize this sheeting.

Standard shapes available, call for details.

Printed signs available, contact us for details.

Sandblast Mask

Hartco 900 Series

	#	Wholesale		VIP	
		Foot	10 Yd	Foot	10 Yd
#930 High Grip 15" x 10 yd.	1350	5.13	140.23	4.57	124.99
#930 High Grip 15" x 10 yd. (Punched)	1351	5.44	148.59	4.85	132.44

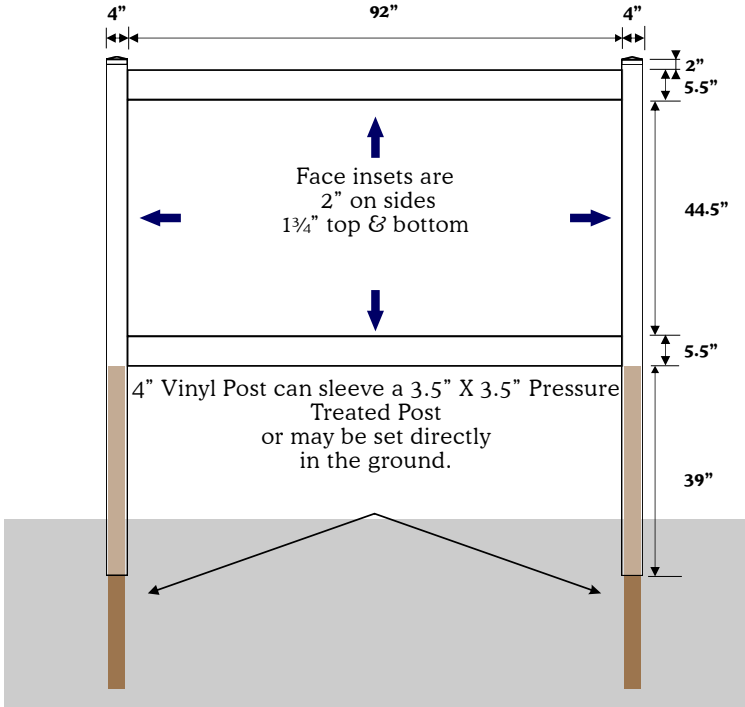

A unique blend of the characteristics of Hartco's most popular 400 Series and their most pliable and blast resistant 500 Series polymeric vinyl. This new formula creates the toughest, most flexible, and versatile stencil that Hartco has ever developed! The 930 is cast to a total thickness of 30 mils. The fully cured vinyl is combined with proven Regular Grip or High Grip Adhesives, comes on a plastic liner punched and unpunched. The 930 has all the pliability and toughness of rubber without the powdery residue, distortion of image, and other detriments. This product solves all your "rubber resist headaches" while still providing what you love most!

Vinyl Post & Panel Kits

Our sign frames are manufactured from heavy duty, long lasting, virgin white vinyl. They are easy to assemble, are maintenance free and resist rotting, rusting, warping, and twisting. These kits are available in your choice of 3' and 4' heights and will accommodate up to an 8' sign panel. Our panel is a 6mm white poly-metal and is included with each kit.

Each kit includes 2 each 8' Rails, 2 each 8' Posts, 16 screws, 2 Post Caps, and 1 ea. 8' Aluminum H-Bar Reinforcement (placed in lower rail).

Item	Wholesale	VIP
3' x 4' Sign Face	205.85	183.48
4' X 4' Sign Face	218.44	194.70
4' X 6' Sign Face	264.44	235.70
4' x 8' Sign Face (shown above)	298.95	266.46

Fabrication

CNC Carved HDU

All-digital process produces smooth surface, wood grain, textured backgrounds, v-carve and more.

Send us your vector artwork and receive a 3D rendering prior to production for approval (\$75 for 3D rendering only, deducted from job when produced).

Allow two weeks for production.

Sandblasted HDU available for same price, with no 3D rendering.
