"Counseling was helpful for me because it helped me to resolve problems without getting mad." - Student

93% of at-risk high school students served reported that counseling helped them to express their emotions constructively.

"I'm able to reflect on good things I'm doing in class. I think more about students' needs—emotional needs—being met before they can learn." - Teacher

91% of school staff reported increased empathy and understanding in the lives of their students outside of school.

Dear Acknowledge Family,

When I think about how much Acknowledge Alliance has grown over the last 21 years, and how many students and educators we’ve helped along the way, my heart is filled with gratitude. In this past year alone, we partnered with 19 schools within Santa Clara and San Mateo counties. Though our services are tailored to each school based on its unique needs, the vision remains the same across the board: that by strengthening the resilience and social-emotional skills of both students and educators, schools become a much more positive place for learning. More students feel connected to school because of the improved relationships with their teachers, peers and counselor. I’d like to thank you for all your support. You continue to shape the growth of our organization; more importantly, you continue to impact the lives of the educators and youth we serve in the most heartfelt ways. Thank you.

With warm appreciation,

Susan Williams-Clark
Executive Director
