WHAT I DID THIS SUMMER

AGES: Elementary and Middle School

DESCRIPTION
Allow students to share information with each other and see if they can identify wants and goals in the story.

FULL LESSON PLAN
1) Divide into groups of 2-3.

2) The group will first tell each other briefly something interesting that happened to them that summer.

3) They will then choose one story and improvise a short scene to perform for the class.

4) Ask students to identify what each character wants in the scene and how he or she tries to achieve that goal.

~ This will necessitate your helping them compromise within a scene, letting one storyline be more prominent etc.
