

COUNTRIES WHERE IT IS OKAY TO CONTACT STUDENTS: PY 2018-19

Highlighted countries indicate authorization to contact students in that country. A country marked with this symbol ➤ is the latest addition to the okay-to-contact list.

Please remember that after a country is okay to contact, there is still a mandatory waiting period of five business days after a placement has been entered in AIS. This waiting period must pass before a host family or your representatives may contact the student about the placement. This waiting period provides sufficient time for recruiting hubs to notify the student and his or her family.
