OBLIGATIONS FOR YFU STUDENTS TO THE USA
TRAVELLING WITH AN ISIS TRAVEL INSURANCE

The medical care system in the USA is very different to the one in The Netherlands or Belgium. Medical care in the USA is extremely expensive compared with the costs in the home country of the students.

Therefore in the ISIS Travel policy the following is stated:
In case the insured (student) has to visit a doctor, specialist or needs to be hospitalized in the USA, immediately prior to visiting the doctor, specialist or admission, the following organization must be contacted for free service. Otherwise you can loose your right for indemnification of the costs:

ISIS Assistance USA/GMMI
7901 SW 36th Street
Suite 100
Davie, Florida 33328
Telefoon: +1 866 255 7635 (toll free)

The advantages of contacting ISIS Assistance before seeking medical care, are for both the insurance company as well as the insured.
ISIS Assistance USA has a huge network of medical providers all over the USA, which results in cost containment. Besides this, ISIS Assistance will pay the costs directly to the medical provider and can issue a guarantee of payment to the hospital. Of course the medical expenses must be covered by the policy.
This means that in case the costs are covered by the ISIS Travel Insurance, you do not have to pay the invoice yourself, as ISIS assistance will settle the bill directly.

In case you, your host family or representative does receive an invoice from a medical provider, please contact immediately ISIS Assistance in the USA. They will deal with the invoice and settle the claim.

Above mentioned information is an integral part of the policy conditions. Please refer to the policy conditions for the exact wording and restrictions.

We wish you a very pleasant stay in the USA!
