

# Get The Look!

Kim Kardashian's Look at VMAs 2016

"Kim and I decided to keep her hair fresh and sexy, perfecting and enhancing her natural texture. A continuation of summery, beach beauty. There is something effortlessly beautiful in playing up natural texture, but of course always making it polished and beautiful."

-Michael Silva @michaelsilvahair

- 1 Apply **NEW Kenra Platinum Snail CC Creme** to damp hair from mid lengths to ends to prep and prime before layering **Kenra Platinum Revive Oil** on top to lock-in moisture.
- 2 Spray **Kenra Platinum Texturizing Mist 6** throughout the hair, working it through with your hands, to bring out the natural wave.
- 3 Thoroughly dry the hair with a diffuser making sure not to touch it too much.
- 4 After the hair was completely dry, I took a flat iron section by section, starting from the back, and perfected the wavy texture and also smoothed some areas where needed.
- 5 Spray a touch of **Kenra Platinum Silkening Mist** and touch the ends with a few more drops of **Kenra Platinum Revive Oil**.
- 6 Spray **Kenra Platinum Finishing Spray 26** all over to lock the style and shine in place and protect against humidity.
