The purpose of this program is to integrate the importance of proper horsemanship into our younger student's repertoire. Students who are comfortable and confident with their horses on the ground, who learn how to properly groom, tack, and care for their horses, will consistently achieve greater success in the saddle. Students will spend 45 minutes riding in a group lesson. The additional 45 minutes will be spent on a horsemanship or stable management activity. Examples include grooming, tacking/untacking, basic horse care and first aid, bathing, and understanding equine behavior. Students who complete this beginner program should be able to comfortably and successfully move into our recreational lesson program.

Students must come prepared each day with the following:

- Properly-fitting ASTM/SEI- certified helmet
- Riding pants
- Paddock boots
- Grooming kit
- Half chaps and gloves *strongly* recommended – dress for success!
