About Art & Soup

The Art & Soup Charity Expo is a two day event hosted by Community Nursing Services (CNS) in partnership with local restaurants and artists.

Expo attendees have the opportunity to browse & purchase items from the art sale, interact with artists, enjoy free samples of homemade soup & food from local restaurants & caterers, delight in live entertainment, plus participate in opportunity drawings & various activities.

CNS’s Art & Soup Charity Event features original works by approximately 50 Utah artists who generously donate 35% of their sales to CNS. All proceeds from Art & Soup go toward our CNS Charitable Care Program, which provides home health care and hospice to thousands of uninsured and underinsured, low-income individuals across the state of Utah.

Community Nursing Services (CNS) was established in 1928 as a charitable organization dedicated to caring for the sick in the comfort of their own homes. CNS is the oldest home health care agency in Utah, as well as one of the largest and most diversified. Today, CNS offers a broad array of in-home services, regardless of an individual’s ability to pay. These services include:

- Skilled home healthcare
- Hospice care
- Physical therapy
- Occupational therapy
- Speech therapy
- In-home infusion therapy
- Pharmaceutical delivery
- Home medical equipment
- Oxygen
- Telehealth
- Personal care aides
- Homemaking services
- Personal emergency response systems
- Immunizations
- Dietitian
- Medical Social work
CNS has pioneered many home health programs in Utah during our long history. We were the first to provide in-home hospice care, the first to help patients with AIDS, and the first to care for COVID-19 patients in the comfort of their homes and we continue to be one of the only agencies in the state to do so.

CNS also started Utah’s first mobile immunization program, which continues to be Utah’s largest provider of mobile flu and vaccination clinics. During the 2020 calendar year, CNS hosted 1,959 on-site immunization clinics throughout the state of Utah. Clinic locations included worksites, places of worship, community fairs, neighborhoods, schools and walk-in/drive thru clinics. CNS has helped the state of Utah overcome the COVID-19 crisis by hosting 2,363 on-site COVID-19 immunization clinics so far this year.

CNS accepts nearly all types of insurances, including Medicaid, and it is our policy to care for the uninsured through our Charitable Care program (funded in part by Art & Soup). In 2020, CNS provided charitable care and services to more than 5,500 individuals in need.

Over the last 93 years, CNS has expanded from our first location in the Salt Lake Valley to 10 locations throughout the state with a team of more than 1,000 staff and caregivers. Quality of care is extremely important to each member of the CNS team. This is one of the reasons CNS continues to receive such glowing reviews with more than a 97% satisfaction rating from our patients.

Support from the community through individual gifts and participating in the Art & Soup Event makes it possible for CNS to continue to meet the healthcare needs of the growing number of individuals and families who are uninsured, underinsured, or otherwise unable to pay for their care. All proceeds from CNS’s Art & Soup event go toward CNS’s Charitable Care Program.
