

LINEA

Bold and beautiful, Linea combines a sleek architectural style with functionality. Offering endless configuration possibilities and finish options, Linea transcends spatial confinements and adapts into private settings as well as open work environments. By creating these flexible spaces, collaboration is encouraged while allowing for privacy and space division.

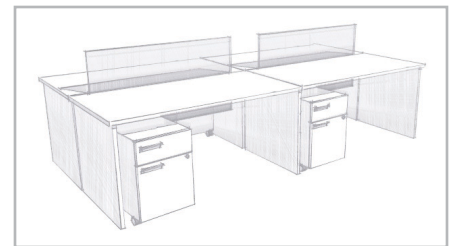

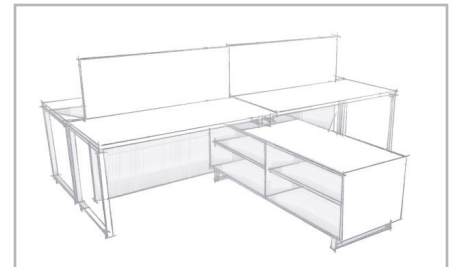

Linea offers infinite single-user configurations that are suitable for any space. With the option to customize your design, you can achieve an executive look in either an open layout or private office at a low cost.

Flexible designs allow for multi-unit workstation configurations that adapt to each work place.

A close-up photograph of a kitchen countertop. The countertop surface is a light-colored laminate with a fine, vertical wood-grain pattern. The edges are finished with a white, solid-colored laminate trim. The countertop is mounted on a white cabinet. The lighting is soft and even, highlighting the texture of the laminate.

OMNI offers a variety of laminate and edge options for all of its products. For more information on different applications, as well as a full gallery of available finishes visit omnipacific.com

OMNI PACIFIC

OMNI Pacific is a San Diego based manufacturing organization that specializes in office furniture, modular cabinetry, and custom solutions for commercial interiors.
