for landscape design

natural stone:
distinctive appearance,
lifelong performance

strength

density

Natural advantages

Distinctive appearance

Nothing rivals natural stone when it comes to appearance. The Bellstone product range provides a strong and diverse palette of natural colours and textures—ideal for landscape architects and design professionals. Bellstone’s rigorous selection processes make our products the clear choice when distinctive appearance is a design imperative.

Bellstone stone surfaces retain their handsome appearance after years of service and, in many cases, improve with age as they develop the distinctive patina and character much admired in natural stone.

Lifelong performance

Bellstone products are selected for their superior strength and durability so they are ideal for outdoor surfaces.

History proves that appropriately selected high-quality stone performs outstandingly for hundreds of years. All our products sit at the top end of the market in terms of their strength, high density and durability ... we select and import only first-rate quality stone.

Low maintenance

Premium quality stone handles high traffic loads with ease, is highly impact resistant, easy to clean and requires only low levels of maintenance.

Slip resistance

The grip characteristics of Bellstone products make them ideally suited to high-traffic outdoor areas, even in wet conditions. CSIRO tests for slip resistance conducted on our products place them in **low** or **very low** risk categories.

(Bellstone products are tested in accordance with Standards Australia Handbook 197, *An Introductory Guide to the Slip Resistance of Pedestrian Materials.*)

Bellstone products

Consistently high quality

Bellstone deals exclusively with premium quality stone products that are ideally suited to professionally designed, indoor or outdoor applications. Working with a worldwide network of suppliers for over 15 years, we’ve built long-term relationships based on reliability of supply and consistently high quality. We make sure our motto extends right along the supply chain: ‘best quality, best service, every time, on time’.

durability

we can readily confirm product availability and certainty of supply on a project basis and over the long term. For large construction projects we recommend you contact us to discuss ordering and lead times so we can make sure we meet your timeframe.

Special orders

Due to our direct working relationships with our suppliers' quarries and stonemasons we can supply customised products for special projects, meeting precise specifications without imposing prohibitive cost penalties. We'd be delighted to provide you with a quote based on your exact requirements.

Visit our warehouse

Because natural stone varies in colour, texture and grain—one reason why it is so popular—and

because some products are hand riven, there may be subtle differences in thickness, edge and surface characteristics which are not obvious when inspecting only one or two samples within a product range.

To help with the selection process, we encourage designers to arrange a visit to our warehouse to view other samples in order to appreciate the natural variation inherent within each product range.

Helpful advice, when you need it

Bellstone staff are in regular contact with landscape design professionals—we enjoy the challenge of providing information to help designers with specific tasks and applications.

Give us a call—we're happy to supply product guides, buying guides and test results, and to help out with technical specifications.

About Bellstone

Formed in 1991, Bellstone wholesales to over 160 retail outlets and works directly with architects, designers, building contractors and tilers.

We are proud of our reputation as the 'number one' supplier in terms of both product and service.

Bellstone 100% guarantee

We will refund the purchase price and replace faulty product at no cost to our client, providing the material has not been laid or installed.

Tell us what you think

We're keen to hear your comments about our products and services. Please phone us on 1800 663 235 or send us your feedback via our website: www.bellstone.com.au.
