

Powered by Data helps leaders in governments and foundations increase their impact by opening their data.

How Can Your Organisation Learn to Design and Execute Impactful Open Data Strategies?

Using open data, organisations and their stakeholders can **gain fresh insights, promote evidence-based decision-making, and unlock innovative new solutions** to longstanding problems. Powered by Data's unique approach ensures that your organisation will develop the necessary capacity and culture to design and implement your own impactful data-sharing strategies.

Open data can help your organisation and its stakeholders:

- Increase social impact
- Make data-informed decisions
- Enable innovation
- Deliver services more effectively
- Deepen engagement with citizens

Powered by Data's 3-Step Iteration

Feedback & integration:

Stakeholder feedback is collected and integrated into policies and practice to inform the next iteration of the process, thereby ensuring the data assets published match with the data needs of stakeholders.

Publication:

Data and information assets are identified, prepared, and published.

Engagement:

External stakeholders are engaged through combined education and capacity-building initiatives.

Who We Are

Powered by Data has over a decade of experience in both open data and nonprofit sector management. We have used this experience to develop our unique, three-step iterative approach to empower organisations to lead with open data.

Powered by Data works with nonprofits, funders and governments to help them better use, share, and learn from data. Powered by Data operates on Tides Canada's shared platform, which supports on-the-ground efforts to create uncommon solutions for the common good.
