

Let us work to gain your business today.
Let our final product ensure your loyalty tomorrow.

TRIAD Update - Quarter 4 - October 2016

Contact Us - Begin Enabling Technology:

- [TRIAD Network Technologies](#)
- Phone: (585) 924-8505

Exciting Projects:

- **Mobile Site Security Offering - Construction Zone**
Scope: Delivered survey with technology package to provide our client a 24/7 monitoring of construction zone. Enhance safety and theft reduction. Turn-key model allowing for rapid implementation and re-purpose of assets for next construction project. Learn more by calling [Jeff Pulli](#) - Account Manager - (585) 576-6444.
- **Audio Video Implementation**
Scope: Design and deploy an A/V solution utilizing HDBaseT Technology. Created a robust, reliable, and scalable platform to accompany the clients requirements as they build for the future. Learn more by calling [Don Munn](#) - Sr. Account Manager - (585) 455-6158.
- **Surveillance and Access Control Project**
Scope: Survey, design, and integrate a comprehensive security solution for a client in Virginia. Solution vetted at our "Results Lab" in Victor NY to demonstrate the software integration and end devices to ensure holistic approach with our client. Learn more by calling [Don Munn](#) - Sr. Account Manager - (585) 455-6158.
