Take charge of uncertainties with greater clarity and control...

Understanding a patient’s health and disease process requires detailed knowledge of the anatomy and physiology of tissues, organs, and systems that compose the human body. Likewise, analyzing and understanding the inner workings of a claim can help win a medical malpractice lawsuit. In this seminar we will dissect a variety of closed malpractice claims to determine how medical record documentation, communication, systems, and testimony contribute positively or negatively to outcomes.

Learning Objectives
Participation in this seminar will better enable participants to:
- Understand the litigation process for allegations of medical malpractice by examining closed claims;
- Recognize how expert witnesses are used for and against physicians and their effect on defense strategies;
- Identify how effective communication and documentation reduce healthcare liability claims.

By participating, you are taking important steps to:
- Stay informed about litigation trends that affect you;
- Incorporate the latest risk reduction strategies into your practice; and
- Manage risk to best position your practice to reduce the likelihood of a lawsuit.

Who Should Attend?
This loss prevention seminar is intended for physicians of all specialties; no experiential or academic prerequisites are necessary.

Continuing Medical Education Credit
ProAssurance Indemnity is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ProAssurance Indemnity designates this educational activity for a maximum of 2.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Premium Credit
Participation in this loss prevention seminar may qualify you for premium credit if you are in attendance for the full two-hour program and are insured by ProAssurance.
