

PASSPORT

MissionBase DC

Passport's MissionBASE is a missions expedition into the heart of Washington DC that connects teens with unmet needs in ways that respect communities, encourage relationship building and ignites passion for service in the name of Jesus. The group will learn about the challenges in getting fresh vegetables and fruits to the residents of portions of the city, and what churches in the city are banding together to do that makes a positive difference.

Groups will discover a deep respect for the culture and people encountered along the way. Together you will have conversations about sharing the kindness of Christ through helping at a fresh foods co-op warehouse, working at a soup kitchen, and meeting the folks in the neighborhood. We will sleep on air mattresses at First Baptist Church of Washington.

And on July 4, we will watch the fireworks from the National Mall!

READY TO GO?
