Childcare was available for children ages 5 and under.

#### Activities offered during Math Night are described below

- The purpose of math night is for parents to learn about the school's math curriculum and have the opportunity to go to individual grades to learn about current math work being done in classrooms.
- Following dinner, Mr. Reynolds provided an overview of the events for the evening. Attendees could attend two breakout sessions, which would allow parents to attend multiple grades/classrooms if needed. Breakout sessions were completed by the following teachers:
  - Kindergarten-Ms. Flores
  - First Grade-Ms. Mazin
  - Second Grade-Ms. Thill & Ms. Barnes
  - Third Grade – Ms. Skaggs & Ms. Lowrance
  - Fourth & Fifth Grade- Ms. Barhoumeh
  - Sixth, Seventh & Eighth Grade- Mr. Reynolds
- Parents were asked to complete an evaluation form to assess 1)what was most beneficial about Math Night, 2)which grade-level session(s) did they attend, and 3)what could be improved for future Math Night events

*ESEA Title I Part A Funds were used to support this activity*
