

Parent Testimonials

We are so *happy* to have found The Meeting House! Every Thursday morning, my daughter wakes up and exclaims, "It's a Meeting House day!" She absolutely loves it! All of the teachers and therapists are amazing in how they work with these children. I am *impressed* with the level of attention the children receive and how wonderful the entire community is there. My daughter has a blast and I have the peace of mind that she is receiving valuable skills, while having *fun* in a loving, understanding environment.

Our son's doctor suggested The Meeting House for us because we were looking for a more organic social group experience for him that would encourage *play* dates outside of the after school group. We have not been disappointed. Almost immediately they "got" our son and he is *thriving* in the after school program and in the many special weekend trips that they arrange.

Amazing! Lucky to have found it. My daughter has made such positive strides.

Mother of 6 year old girl from NYC private school

I think what makes The Meeting House so *unique* is that the kids are all learning social skills, but they're completely unaware that it's "therapeutic" time and they just have fun. Unlike traditional social skills groups, The Meeting House is just a wonderful *community* of kids and grown-ups who have a great time together learning how to build meaningful relationships.

Meeting House offers a warm and supportive community for my son with wonderful enrichment classes like hip hop and improv that have expanded his horizons and helped him to build confidence.

We are *grateful* for the opportunity for our child to participate in Meeting House. She knows that at TMH, there is a *safe* place where she is accepted with no fear of judgement.
