

# Parent Testimonials

He started the program and I saw results very quickly. Now he goes to the playground and is super **excited** to interact with the other children and has a good time...which means the world to me. He really has grown a lot and I just really have to say **thank you**.

*When we heard about the program, we hoped it would be good...then we got here and we realized it is just such a special, **amazing** place.*

We are **grateful** for the opportunity for our child to participate in Meeting House. She knows that at TMH, there is a **safe** place where she is accepted with no fear of judgement.

*Parent of 6 year old girl from UWS*

Our son's doctor suggested The Meeting House for us because we were looking for a more organic social group experience for him that would encourage **play** dates outside of the after school group. We have not been disappointed. Almost immediately they "got" our son and he is **thriving** in the after school program and in the many special weekend trips that they arrange.

The children who grow up with the Meeting House will grow to be **better** adults because they have this program.
