Acorn Series

Bolia Lighting Overview

Acorn Series

The Acorn pendant and table lamps share an appealing, organic silhouette – inspired by the characteristic shape of an acorn. The lamps are made in FSC®-certified oak and white opal glass with the cord seamlessly integrated into the design. The material contrast of opal glass and oiled oak makes the lamps equally appealing on or off. Designed by the Danish design studio 365° North.

Campa Series

Bolia Lighting Overview

Campa Series

The Danish design studio, Spant Studio, is behind Campa. A series of lamps, where each one takes ownership of its unique signature, but where the distinctive design is echoed in all versions. The inspiration behind the design was to create a simple design without too many components, which would still catch the eye. The light source and shade's material have been carefully selected to do just that. The shade is made of opal glass, which creates a calming atmosphere for the eye and mind. The design of the shade creates a downward light, as well as through the semi-transparent glass, and the small grooves on the side of the shade are a stylish detail.

A modern living room with a curved, light-colored sofa. A large, wire mesh pendant light hangs from the ceiling. A vase of white and green flowers sits on a round coffee table. The room has large windows and a patterned rug.

Anelli Series

Bolia Lighting Overview

Anelli Series

A series of voluminous yet airy pendants with a natural and effortless feel. Each pendant is composed of rings of oak or birch veneer, gently suspended by fine string that is knotted through each ring. The LED top emits a softly diffused light through the screen. Available in two sizes that can be grouped into atmospheric arrangements with a transparent quality.

Orb Series

Bolia Lighting Overview

Orb Series

Like beads on a string. Perfectly rounded glass balls create a reflective, shining light in any room. The Orb pendant's light creates an exclusive atmosphere, and has a clean, pared-back effect as well as being refreshingly casual. The combination of brass and glass adds an industrial edge to your home.

Reflection Series

Bolia Lighting Overview

Reflection Series

Born with the idea and aspiration to create something simple, elegant and timeless that embraces and highlights the basic features of a lamp, namely the light source and the shade, Reflection came to life. The designer behind, Asger Risborg Jakobsen, decided to bring forth and separate the two basic components from one another, giving a beautiful reflection and play between the shade and the soft light source. A beautiful design with a timeless and still lively feel.

Aluna Series

Bolia Lighting Overview

Aluna Series

The designer behind Quaglio Simonelli created the Aluna lamp series with an architectural eye for detail. Drawing from the subtle interplay between lines, asymmetry and balance, Aluna's voluminous lampshade seems almost floating. The floor lamp and table lamp have a rotatable shade that adds functionality to the design. A design language that gives each lamp a playful yet classic expression.

Leaves Series

Bolia Lighting Overview

Leaves Series

One of the greatest artists of the 1960s was the American sculptor Alexander Calder. He designed small moving sculptures suspended from strings or rods, and his art was the source of inspiration for designer Kateryna Sokolova in her work with the Leaves lamp. The result is a sculptural and iconic pendant with elegant lampshades that can rotate to the sides, so the light source can be adapted to suit your needs. The Leaves lamp is an aesthetic design that hovers beautifully above the dining table, creating the perfect hint of decadence.
