ABOUT NORTHERN LIGHT SCHOOL

Northern Light School was founded September 11, 1989 by four women with a calling to provide a Whole Child Education for children who would not have the opportunity for a private school setting.

Since its founding, NLS has embodied the basic premise that it does indeed "Take a Village to Raise a Child." At Northern Light School the "village" is so much more than the community of students, educators, and families who call the school home. NLS students are reminded daily that they are part of the global village of the world, and that because they live in an interdependent global society, they have an obligation to make the world a better place.

Inspired by the core ideals of the civil rights movement, NLS is also deeply committed to advancing the cause of social justice through culturally responsive programming that affirms the diversity of our community and gives young people the tools to "promote the moral advancement of humanity," as the school mission states.

A Northern Light School education does not end when a child ventures forth into our global village. The sense of community they first encountered in our school is rooted deep within their character and serves them throughout their lives as they continue to positively impact others, and transform the world into a more thriving, beautiful place.
