ACTIONABLE SCIENCE EXPANDS ADVISORY BOARD WITH HUMAN RESOURCES DOMAIN EXPERTISE

HR Technology Thought Leader Steve Goldberg Joins AI Company Actionable Science Which Develops and Deploys Skilled Digital HR Agents

SAN RAMON, Calif., Oct. 4, 2017 -- Artificial intelligence and Virtual Workforce solutions company [Actionable Science](#) has added well-known human resources thought leader and global HR systems advisor Steve Goldberg to its board of advisors.

“We’re thrilled to have Steve join us because a key area of focus for us is using AI technology to develop and provide skilled Virtual Employees who are purpose-built to join enterprise HR teams and be immediately productive for simple and complex HR support needs,” said Saurabh Kumar, Actionable Science CEO and co-founder. “Having Steve’s guidance and insights will add to our vision and further the development of our Virtual Employees for HR roles.”

Actionable Science’s lead Virtual Employee for HR duties is [Vera](#), who is a fully digital agent providing personalized, first-level HR support to an enterprise’s employees. Vera handles common, repetitive HR tasks such as employee onboarding, answering policy questions and various HR Helpdesk activities. Vera, along with all of the company’s Virtual Employees, handles processes end-to-end, beginning with talking to users through natural language processing, thinking about solutions via machine learning, and then acting on followup steps by connecting to robotic process automation.

Steve Goldberg's 30-year career on all sides of HR process and technology has included corporate VP roles in the U.S. and Europe, heading-up HCM Product Strategy at PeopleSoft and emerging players, and serving as a principal industry analyst. He is considered a thought leader in HR Tech, AI in HR, HR-M+A, analytics and change management. In recent years, Steve has advised dozens of end-customers and HR solution providers on maximizing the impact of HR technology assets. He holds an MBA in HR and BBA in Industrial Psychology, is widely published and has been a keynote speaker at many industry events.
