

## KIEPERSOL FRUITION

### *Sweet Surrender*

*F*ruition is literally the point at which a great plan comes together...that's what we tasted with the first swirl of the glass. The sun, the soil and the sense of place come together perfectly in Fruition for an everyday sweet red that holds your attention with summer ease.

The brilliant cherry red hue gives way to a fanciful nose of cherries, fruit cocktail and licorice. The perfectly balanced palate of fresh strawberry punch and red berry charms like only East Texas can.

This wine is gorgeous chilled, but can be served at room temperature.
