SPRING WORKSHOPS 2017

We work with great tutors to lead our workshops, each a professional maker in their own right.

Most workshops are suitable for beginners and those with experience unless otherwise stated.

Groups are small so you receive individual attention and can work at your own pace.

New Brewery Arts also runs a full programme of weekly courses and offers creative workshops and craft parties for all occasions.

A selection of our workshops are available as a residential package and you can turn any of our workshops into a short break and stay with us in our new visitor accommodation.

Stylish and affordable, The Barrel Store is not only a great base for our classes and workshops, you can make it a springboard for exploring the Cotswolds too.

See website for full details of all courses and to book online.
