### TCR-LCD-10 LCD Video Monitor

The TCR-LCD-10 LCD monitor is designed to be used in any environment and provide outstanding resolution along with easy operator controls. The monitor is designed to operate from 12vdc or 24vdc sources to include all standard military batteries and is constructed with a hardened case to withstand the most rugged environments. The screen is protected by an anti-glare acrylic hardcover and the connectors and controls are shielded to prevent damage.

#### Features

- Simple & Easy To Use Design
- Weather Resistant
- Rugged Black Anodized Case
- Small & Lightweight Protected (Anti-Glare) LCD Screen
- 10" Screen offers wide 180deg viewing angle
- Locking Connectors
- 12 Volt Operation

#### Part number

- 11000-00739

#### Display

Display Type: 10.4" Diagonal TFT  
Resolution: 1024 x 768  
Backlight: LED

#### Electrical

- Operating Voltage: 11-36 VDC
- Operating Current: 800 mA @ 12V  
450 mA @ 24V
- Monitor Controls: ON/OFF, Brightness and Contrast
- Video Input Format: NTSC Composite, 1V p-p, 75 Ohms

#### Physical

Size: 11"W X 7.75"H X 1.2"D  
Weight: 3.5 lbs
