## **United States Companies With A Presence In Cuba Since 17 December 2014 No Manufacturing/Assembly/DFI Many Licenses Issued By OFAC/BIS Not Yet Disclosed & Implemented**

United States-based companies engaged in export of products, import of products and provision of services, including publicly-confirmed memorandum of understanding (MOU).

For 2016, the global gross revenues of the fifty (50) listed companies exceeded US\$974 billion and employed approximately 2 million within the United States and other countries; not including revenue/employees from the United States Postal Service (USPS).

The listing does not include travel agents and tour operators, most of whom have arrangements with Republic of Cuba government-operated Havanatur Celimar, Asistur, Gaviota and other Republic of Cuba government-operated companies to market itineraries.

This listing does not include United States-based companies that have exported food products and agricultural commodities (Trade Sanctions Reform and Export Enhancement Act of 2000; TSREEA) and medical equipment, medical instruments, medical supplies, medicines, and pharmaceutical products (Cuban Democracy Act of 1992; CDA).

There is no Direct Foreign Investment (DFI) in the Republic of Cuba by United States-based companies. Since 17 December 2014, there have been two (2) proposals in the public domain that could qualify as DFI and each was rejected by the government of the Republic of Cuba: Alabama-based Cleber LLC (a facility in the Republic of Cuba that would use parts manufactured in the United States and delivered to the Republic of Cuba to assemble tractors for the domestic market and for export) and Florida-based Florida Produce of Hillsborough County (distribution center in the Republic of Cuba featuring food and other products imported from the United States).

There are a reported twenty (20) to more than seventy (70) licenses issued in 2016 (before and after the 8 November 2016 presidential election to 20 January 2017; and issued subsequent to 20 January 2017) by the Office of Foreign Assets Control (**OFAC**) of the United States Department of the Treasury and/or Bureau of Industry and Security (**BIS**) of the United States Department of Commerce, that have not been disclosed by the licensee, have not been implemented by the licensee, have been implemented by the licensee but not disclosed, and/or in some instances confirmed by the government of the Republic of Cuba but not by the licensee.
