What United States Companies Can Do

United States businesses are permitted under a general license (no written authorization required) or specific license (written authorization required) from the Office of Foreign Assets Control (OFAC) of the United States Department of the Treasury in Washington, D.C., and/or Bureau of Industry and Security (BIS) of the United States Department of Commerce in Washington, D.C., to:

Execute and implement contracts within the fields of agricultural products, agricultural equipment, agricultural tools, building materials, air charter services, ferry services, artwork, communications, cultural events, entertainment, exhibitions, farm supplies, food sales, informational materials, medical equipment, medical instruments, medical supplies, medicated products, medicines, money transfer services, package delivery services, pharmaceuticals, telecommunications, communications equipment, travel services, and products for use by independent private sector entrepreneurs. Payment terms other than “cash in advance” are authorized for exports other than food products and agricultural commodities.

From the OFAC: *“materials for use by the private sector to construct or renovate privately-owned buildings including privately-owned residences, businesses, places of worship and buildings for private sector social or recreational use; goods for use by private sector entrepreneurs such as auto mechanics, barbers and hairstylists and restaurateurs; and tools and equipment for private sector agricultural activity. It is intended to facilitate Cuban citizens’ lower-priced access to certain goods to improve their living standards and gain greater economic independence from the state. It also enables the export and re-export to Cuba of items to further support civil society in Cuba.”*

Visit the Republic of Cuba to identify commercial opportunities within the fields of agricultural products, agricultural equipment, agricultural tools, building materials, air charter services, artwork, communications, cultural events, entertainment, exhibitions, farm supplies, food sales, informational materials, medical equipment, medical instruments, medical supplies, medicated products, medicines, money transfer services, package delivery services, pharmaceuticals, telecommunications, communications equipment, travel services, and products for use by independent private sector entrepreneurs.

Register trademarks and patents.

Provide camera-ready artwork for advertising on television, in newspapers and magazines.

Execute non-binding letters of intent.

Provide funding to entrepreneurs.

Make donations of products for humanitarian purposes.

Organize and participate in trade shows.

Have executives lecture at educational institutions.

Authorize consumer credit cards to be valid for use.

Have indirect non-controlling investments. On 4 March 1994 the OFAC issued an opinion to Mr. John S. Kavulich, which stated that a U.S. business or individual subject to U.S. law may make a secondary market investment in a third-country business which has commercial dealings within the Republic of Cuba provided that the investment does not result in control-in-fact of the third-country business by the U.S. investor and the third-country company does not derive a majority of its revenues from business activity within the Republic of Cuba. Secondary market investment that falls short of a controlling interest in such a business is not prohibited.

The information on the following pages is both current and old... and is provided to present a landscape of activity for reference....

United States-Republic of Cuba Commercial Relations -- 1980 to Present

Between 1980 and the end of 1992, for example, the value of United States-owned foreign subsidiaries' trade, licensed by the Office of Foreign Assets Control (OFAC) of the United States Department of the Treasury and by the Bureau of Industry and Security (BIS) of the United States Department of Commerce, with enterprises within the Republic of Cuba was US\$4.563 billion.

Of this total trade, US\$2.637 billion was the value of subsidiaries' exports to the Republic of Cuba permitted by the licenses and US\$1.926 billion was the value of subsidiaries' imports from the Republic of Cuba permitted by the licenses. There were 2,938 licenses issued by the OFAC and by the BIS to more than one hundred United States-based companies businesses (see attached listing) between 1980 and the end of 1992. There were few license applications rejected by the OFAC.

The implementation of the Cuban Democracy Act in October of 1992 eliminated (bulk food commodities) the continuation of most United States-owned foreign subsidiaries' trade with enterprises within the Republic of Cuba, but at the same time provided additional licensed and non-licensed opportunities for the artwork, communications, entertainment, informational materials, medical equipment, medical instruments, medical supplies, medicated products, medical, pharmaceutical, publishing, and telecommunications industries.

Year	Estimated Number Of United States Business Representatives Visiting The Republic Of Cuba
2016	500
2015	500
2002	4,200 (estimate)
2001	3,700
2000	3,400
1999	2,800
1998	2,500
1997	2,000
1996	1,500
1995	1,300
1994	500

The total value of permitted United States commercial activity within the Republic of Cuba from October 1994 through November 2002 is estimated to have exceeded US\$1.5 billion million.

Executives of AOL Time Warner and other companies have traveled to the Republic of Cuba to discuss opportunities for the export and import of music, films, and publications. Johnson & Johnson and other companies have received licenses from the BXA to export healthcare products to Republic of Cuba government-operated companies. AT&T, LDDS/Metromedia, MCI, Sprint, AT&T de Puerto Rico, Wil-Tel, and WorldCom each provide long distance telephone and data services between the United States and the Republic of Cuba.

The number of United States-based companies receiving Carrier Service Provider (CSP) licenses and Travel Service Provider (TSP) licenses from the OFAC increased during the period 7 September 2000 through 13 April 2001. The number of United States-based companies receiving and Remittance Forwarder (RF) licenses from the OFAC has decreased during the period 7 September 2001 through 13 April 2001. As of April 2001, a total of 164 United States-based companies had a combined 273 licenses (TSP, CSP, and/or RF) issued by the OFAC.

Period	TSP Licenses	CSP Licenses	RF Licenses	Total Licenses
13 April 2001	149	28	96	273
7 September 2000	137	27	99	264
12 August 1999	103	19	92	214

Elk Grove Township, Illinois-based **United Airlines, Inc.**; Dallas/Fort Worth Airport, Texas-based **American Airlines, Inc.**; Atlanta, Georgia-based **Delta Air Lines, Inc.**; and Dania Beach, Florida-based **Gulfstream International Airlines**, within which Houston, Texas-based Continental Airlines, Inc. has a 28% interest, each have CSP licenses from the OFAC which authorize the transportation of passengers and cargo between the United States and the Republic of Cuba. United Airlines also has a TSP license from the OFAC. RF licenses are held by Englewood, Colorado-based **Western Union Financial Services, Inc.** and Minneapolis, Minnesota-based **MoneyGram Payment Services, Inc.**

Only Gulfstream International Airlines (which has a CSP license and a TSP license) has chosen to operate regularly scheduled charter flights between the United States and the Republic of Cuba using its own aircraft. United Airlines and American Airlines have chartered their aircraft to CSP licensees for use on regularly scheduled charter flights between the United States and the Republic of Cuba; and Delta Air Lines has used its aircraft to transport a group from the United States to the Republic of Cuba.

Since 1962, Delta Air Lines, Continental Airlines, and United Airlines have had route authorities from the following cities: Delta- Havana to Houston, Los Angeles, New Orleans, San Francisco, and San Juan; Continental- Havana to Fort Lauderdale, West Palm Beach, United- Havana to Miami, Key West, Baltimore, Boston, Dallas, Houston, Los Angeles, New Orleans, New York, Newark, Philadelphia, San Francisco, San Juan, St. Croix, St. Thomas, and Washington, D.C.; and Camaguay to Miami, Baltimore, Boston, Dallas, Houston, Los Angeles, New Orleans, New York, Newark, Philadelphia, San Francisco, San Juan, St. Croix, St. Thomas, and Washington, D.C.

US Airways permits the 17 million members of its US Airways Dividend Miles program to *accrue* mileage for travel to/from/through the Republic of Cuba. While US Airways does not currently provide service to/from/through the Republic of Cuba, and no awards are available for travel to the Republic of Cuba, members of the US Airways Dividend Miles program can accrue mileage to/from/through the Republic of Cuba when traveling on airlines affiliated with LatinPass. LatinPass is a worldwide partner of the US Airways Dividend Miles program (other airline partners include ANA, Qantas, Alitalia, Sabena, Swissair, and Northwest). LatinPass, which has 125,000 members, includes ACES, Avianca, Aviateca, COPA, LACSA, Mexicana, Nica, Saeta, Taca, US Airways, KLM, Avis, American Express Membership Rewards, AT&T True Awards, InterAmerican Rent-a -Car, Diners Club Rewards, Holiday Inn Worldwide, and Radisson Hotels Worldwide.

Year	Travelers (not including individuals of Cuban descent visiting relatives) Visiting (charter flights, regularly-scheduled flights and through third countries) Reported By The National Statistics Office (NTO) of the Republic of Cuba	Authorized Travelers Using Charter Flights Reported By The OFAC (including individuals of Cuban descent and individuals not of Cuban descent)

<p>* OFAC reported that approximately 120,000 of the 135,000 were individuals of Cuban descent visiting immediate family members residing in the Republic of Cuba; and approximately 21,000 individuals subject to United States law traveled through third countries for their authorized visit to the Republic of Cuba. The OFAC permits individuals subject to United States law of Cuban descent to visit the Republic of Cuba for a “self-defined humanitarian need” once every twelve months under a general license from the OFAC; additional visits require a specific license from the OFAC.</p>		
<p>** Using regularly-scheduled direct charter flights operating from Miami International Airport and, during the month of December 1999, newly-established service from John F. Kennedy International Airport in New York City; and general aviation charter flights from other cities.</p>		

The government of the Republic of Cuba reports that individuals subject to United States law who are of Cuban descent, regardless of whether the individual was born in the Republic of Cuba or born in the United States, are defined as “returning nationals” and not included in the category of “visitors.”

In March 2000, Mr. Eduardo Bencomo, President of Republic of Cuba government-operated Corporacion Cimex S.A., the largest Republic of Cuba government-operated company earning revenues in U.S. Dollars,

reported that 124,000 individuals of Cuban descent who are subject to United States law visited the Republic of Cuba in 1999, primarily using the travel services of Republic of Cuba government-operated Havanatur, a subsidiary of Corporacion Cimex S.A. Since 1994, the number of individuals subject to United States law authorized by a general license (no specific documentation from the OFAC is required) or specific license from the OFAC to travel to the Republic of Cuba has increased on average 9% to 11%. Since 1994, the number of individuals subject to United States law traveling to the Republic of Cuba, but not authorized by the OFAC to do so, has increased on average 19% to 21%. Approximately 22,000 individuals subject to United States law traveled to the Republic of Cuba in 2000 without authorization from the OFAC. Approximately 92% of individuals subject to United States law visiting the Republic of Cuba from 1994 through 2000 were of Cuban descent whose specific purpose was to visit immediate family members for a self-defined “*humanitarian purpose*” or under the auspice of a specific license issued by the OFAC. Individuals subject to United States law of Cuban descent who have immediate family members residing within the Republic of Cuba are permitted one visit under a general license from the OFAC every twelve months for a self-defined “*humanitarian purpose*.” Approximately 8% of individuals subject to United States law traveling to the Republic of Cuba since 1994 under a general license from the OFAC or specific license from the OFAC were business representatives, journalists, academicians, cultural groups, students, athletes, and humanitarian groups amongst an expanding number of categories.

Since January 1999, with the expansion of the “*people-to-people*” program regulated by the OFAC, **a**) the annual rate of increase for authorized travelers has increased **b**) the annual rate of increase for unauthorized travelers has decreased as more unauthorized travelers determine that they are eligible for a license from the OFAC and **c**) the ratio of all travelers visiting the Republic of Cuba has shifted, with the percentage of authorized travelers visiting the Republic of Cuba who are not of Cuban descent increasing from approximately 8% to approximately 17%.

U.S. Congress Hearings

Representatives of the U.S. business community appearing and/or providing statements to the 17 March 1994 joint hearing before the Subcommittee on Select Revenue Measures and the Subcommittee on Trade of the Committee on Ways and Means of the U.S. House of Representatives: AT&T; Carlson Companies; LDDS/Metromedia; RKO Pictures; SH&E; and United Technologies Corporation.

Representatives of the U.S. business community appearing at and/or providing statements to the 19 May 1994 hearing before the Subcommittee on Foreign Agriculture and Hunger of the Committee on Agriculture of the U.S. House of Representatives: Archer Daniels Midland Company; National Oil Seed Processors Association; National Pork Producers Council; The Rice Miller's Association; and U.S. Rice Producer's Group.

Representatives of the U.S. business community appearing at and/or providing statements to the 30 June 1995 hearing before the Subcommittee on Trade of the Committee on Ways and Means of the U.S. House of Representatives: National Association of Sugar Mill Owners of Cuba; U.S.-Cuba Trade and Economic Council; and USA Rice.

Representatives of the U.S. business community appearing at the 23 October 1997 hearing and/or providing statements regarding the “Use and Effect of Unilateral Trade Sanctions” before the Subcommittee on Trade of the Committee on Ways and Means of the U.S. House of Representatives: USA Engage; The Boeing Company; National Association of Manufacturers; National Foreign Trade Council; American Farm Bureau Federation; European-American Business Council; U.S.A. Rice Federation; and U.S.-Cuba Trade and Economic Council.

Representatives of the U.S. business community appearing at the 7 May 1998 hearing and/or providing statements for the hearing before the Subcommittee on Trade of the Committee on Ways and Means of the U.S. House of Representatives, the focus of which “is to examine: (1) U.S. economic and trade policy toward Cuba and the impact of the U.S. embargo on the Cuban people, (2) the prospects for future economic relations in light of the Pope’s recent visit, (3) the status of humanitarian assistance extended to the Cuban people, and (4) how U.S.-Cuba policy, particularly the Helms-Burton legislation, has affected relations with U.S. trading partners.” included: Chamber of Commerce of the United States; USA Engage; Medical Device

Manufacturers Association; European-American Business Committee; and U.S.-Cuba Trade and Economic Council.

United States Companies and the Republic of Cuba

Some of the United States-based companies and United States-based companies with non-United States-based subsidiaries engaging in commerce with entities within the Republic of Cuba under licenses issued by the OFAC and/or BIS from 1985 through 2002. Some of the companies engaged in authorized foreign subsidiary transactions permitted until the implementation of the Cuban Democracy Act (CDA) in 1992. Activity was also authorized by the CDA (healthcare products) and TSREEA of 2000 (food products and agricultural products).

Republic of Cuba Commercial Highlights

Background

Cuba is the largest Caribbean Sea-area country, larger than nearly all of the islands within the Caribbean Sea-area combined, and with nearly one-third of the combined populations. Nearly as large as the State of Pennsylvania and approximately as long as the State of Florida. With 11.217 million citizens, the population is approximately the same as the State of Illinois. If Cuba were a state within the United States, it would rank 7th in population.

Cuba, like the United States, was a founding signatory of the General Agreement on Tariffs and Trade (GATT). Cuba, like the United States, is a member of the World Trade Organization, unlike the People's Republic of China and Russia. The United States and Cuba share membership in many international organizations and are signatories to many of the same international treaties.

There are more than 600 representation offices of foreign businesses located within the Republic of Cuba. Republic of Cuba government-operated companies maintain commercial dealings with approximately 4,500 foreign businesses in more than 100 countries.

The Republic of Cuba maintains diplomatic relations with 173 countries. Seventy-nine countries have embassies in the Republic of Cuba.

As of 1 March 2002, there were a reported 403 joint ventures and economic associations established with Republic of Cuba government-operated companies by companies located in 46 countries, compared with 392 in 2000. The 403 joint ventures and economic associations are in thirty-two sectors, including tourism, oil, mining, product assembly, and agriculture. There are approximately seventy joint ventures and economic associations located in other countries, including Vietnam, People's Republic of China, and Brazil.

1993	112
1992	80

The Republic of Cuba government-operated Central Bank of the Republic of Cuba reported that direct foreign investment was US\$38.9 million in 2001, the lowest value since direct foreign investment information was first reported in 1993. The Central Bank of the Republic of Cuba, in its annual report to creditors, reported that the flow of capital to developing countries was the lowest since the early 1990's, but did not provide an explanation for the decline in direct investment to the Republic of Cuba. Approximately US\$400 million of direct foreign investment reported in 2000 was for a 50% interest purchased by Madrid, Spain-based Altadis S.A. (Alliance Tabac Distribution) in Republic of Cuba government-operated Corporacion Habanos S.A., the exclusive distributor of Republic of Cuba manufactured cigars. However, Altadis S.A. reportedly did not distribute US\$400 million within the Republic of Cuba in 2000, as a portion of the US\$400 million was reportedly used to repay previously-owed debt by Corporacion Habanos S.A. to Altadis S.A.

Year	Reported Direct Foreign Investment
2001	US\$38.9 million
2000	US\$448.1 million
1999	US\$178.2 million (previously reported as US\$205 million)
1998	US\$206.6 million

1997	US\$442 million
1996	US\$82.1 million
1995	US\$47 million
1994	US\$563.4 million
1993	US\$54 million
1992	Not Reported
1991	Not Reported
1990	Not Reported
1989	Not Reported
TOTAL	US\$2.060.3 billion

H.E. Marta Lomas, Minister for Foreign Investment and Economic Cooperation of the Republic of Cuba (MINVEC), reported that Republic of Cuba government-operated companies established twenty-four joint ventures in 2001, compared with thirty-one joint ventures established in 2000, and fifty-eight joint ventures established in 1999. Thirteen of the joint ventures established in 2001 were outside of the Republic of Cuba. The twenty-four joint ventures had a combined announced/committed direct foreign investment of US\$400 million. However, unclear is how the thirteen joint ventures established outside of the Republic of Cuba in 2001 would result in direct foreign investment within the Republic of Cuba in 2001.

Minister Lomas reported that there were 400 operational joint ventures in 2001, compared with 392 operational joint ventures in 2000. However, Sixteen joint ventures ceased operating in 2001, primarily relating to mining contracts and oil exploration contracts. Minister Lomas reported that seventy-two of the 398 joint ventures were established outside of the Republic of Cuba. The seventy-two joint ventures are primarily relating to healthcare products, veterinary healthcare products, insect control products, construction, sugar, weights and measures, and tourism. Minister Lomas reported that announced direct foreign investment since 1990 was approximately US\$5.4 billion, of which approximately US\$2.65 billion had been delivered within the Republic of Cuba. However, the components of the reported US\$2.65 billion in direct foreign investment to the Republic of Cuba have not been identified; and a portion of the US\$2.65 billion reported as direct foreign investment may be government-provided credits or other forms of financing.

Total announced/committed/delivered direct foreign investment within the Republic of Cuba is approximately US\$5 billion by more than 100 companies from 30 countries as of January 2002.

Investment Protection and Promotion Agreements

Italy (May 1993), Russia (July 1993), Spain (May 1994), Colombia (July 1994), United Kingdom (January 1995), China (April 1995), Ukraine (May 1995), Bolivia (May 1995), Vietnam (October 1995), Lebanon (October 1995) Argentina (November 1995), South Africa (December 1995), Chile (January 1996), Romania (January 1996), Barbados (February 1996), Germany (May 1996), Switzerland (June 1996), Greece (June 1996), Venezuela (December 1996), Hungary (January 1997), Belgium (initialed), France (April 1997), Laos (April 1997), Ecuador (May 1997), Cape Verde (May 1997), Jamaica (June 1997) Brazil (June 1997), Indonesia (September 1997), Namibia (June 1997), Malaysia (September 1997), Turkey (December 1997), Belize (April 1998), Belgium (May 1998), Portugal (July 1998), Suriname (January 1999), Panama (January 1999), Trinidad and Tobago (May 1999), Guatemala (August 1999), Hungary (October 1999), The Netherlands (November 1999), Ghana (November 1999), Dominican Republic (November 1999), Zambia (March 2000) and Austria (May 2000), Yugoslavia (August 2000); Colombia (September 2000), Tunisia (October 2000), Peru (October 2000), Paraguay (November 2000), Croatia (February 2001), and Denmark (February 2001). Mexico (May 2001), Cambodia (May 2001), (August 2001), Mozambique (October 2001), (November 2001) and Finland (December 2001), San Marino, Italy (February 2002).

The government of the Republic of Cuba has a *tax treaty* with Lebanon, Russian Federation, Portugal, Spain, Italy, Barbados, and People's Republic of China.

Tourism

Before 1959, 85% of tourists visiting the Republic of Cuba were United States citizens. There are differences between tourist arrivals reported by the Madrid, Spain-based World Tourism Organization (WTO), of which

the government of the Republic of Cuba is a member, and by the Ministry of Tourism of the Republic of Cuba:

Year	Tourist Arrivals (Reported By Cuba)	Tourist Arrivals (WTO)
2018	5,000,000 (projected as of July 2017)	
2017	4,700,000 (projected as of July 2017)
