■ Our Team

We have been in the business since 1991 and our CEO, Charles Read, is a licensed CPA! We are located in Lewisville, Texas but serve happy clients all over the U.S.

We have the experience and desire to take care of you, your employees, and your business way beyond your expectations.

We offer tax compliance beyond all industry standards, so much so that we have CPAs and a U.S. Tax Court Practitioner to work on behalf of all our clients and ensure your security. There are barely any USTCPs because it is one of the most difficult exams in the nation to pass. You are well protected with GetPayroll.

We're easy to setup. Getting you switched is simple and we have one of our professionals walk you through the whole process so you don't have any problems.

Getting your business setup right from the outset relieves 80% of the potential headaches further down the road -- we make sure you get started right to make your life as easy as possible.

If you've never outsourced before, you've been wasting money and putting your company at risk under the guise of, "it doesn't cost me anything to have [Insert Name] do it." If you don't believe us, ask us to prove it.

Outsourcing your payroll service to GetPayroll helps protect your business in more ways than one. Not only do you get the highest level of tax compliance in the industry, but you're also protected from stealing that oftentimes happens when an employee is handling the payroll. It doesn't happen to everyone, but everyone it happens to didn't think it would happen them either.

Rather than dragging you through the ringer with quotes and add-ons and all the different methods usually used to rip clients off, we offer our services at an All-Inclusive Flat Rate. Just look for which business size you fall under and you've got your price!
