

NAU, The first modular catamaran

HALL 15/G42

The Concept:

With NAU, making a choice does not mean losing out.

NAU offers an affordable and customizable innovative modular boat which evolves with everyone's wishes and proficiency. The first NAU modules range will allow the customer to enjoy 5 different boats: from dinghy/optimist type, to a sport catamaran or small motor boat.

Nau's simple fixing system requires no tools to assemble or dis-assemble the boat for easier storage and transport. One can also pass rapidly from one configuration to another. Designed and produced in France, NAU is the best solution to discover the pleasure of boating.

Character traits: evolving, easy to use, robust, innovative, practical, performance.

The NAU catamaran:

- Robust, stable and suitable for all age levels and standards, in leisure or racing, the Nau catamaran is among the most rigid in its class.
- Handy, customizable and high-performance, Nau has been designed in a participatory way, in conjunction with JMKoncept.
- Practical and easily dismantled, it has a patented tool free attachment system.

Price: 7 490€

tbs is NAU exclusive equipment partner.
