Wireless Solutions Provider Centerline Solutions Announces New Office Opening in Atlanta

– Rapidly Growing Company Expands Introducing Ninth Office Throughout the U.S. –

GOLDEN, Colo. – [Centerline Solutions](#), a leading provider of wireless infrastructure services to the telecommunications industry, today announced the opening of its newest office, located in Atlanta, Georgia. The expansion will further grow the company’s presence in the South, following the acquisition of a Florida-based company in March of this year. This growth further poises Centerline Solutions into a position of national reach within the wireless industry as they offer comprehensive turnkey wireless services to a growing geographic region.

Centerline Solutions is a fast-growing leader in the wireless industry, providing all the services needed to design, build, modify and maintain the infrastructure for wireless networks. The company stands apart in an industry where subcontracting is the norm, by offering all the expertise and services needed for the entire wireless network life cycle all under one roof. Centerline Solutions has seen nearly triple-digit growth over the past three years, and its customers include all of the major wireless providers, equipment manufacturers, tower owners, government entities and private industries.

“Our team is very excited for this next step into the Southeastern market,” said [Benjamin Little](#), CEO of Centerline Solutions. “We are proud to offer our full suite of services throughout Georgia and neighboring states, which is a new territory for us.”

The addition of an Atlanta office brings Centerline Solutions to a total of nine offices across eight states, including locations in Denver, Seattle, Portland, Olympia-WA, Phoenix, Rochester, Tampa & Honolulu. The company now supports over 430 staff members across all its markets and handles projects throughout North America, including Canada and Mexico.

About Centerline Solutions

Founded in 2000, Centerline Solutions today is the most trusted provider of infrastructure services to the wireless telecommunications industry. We operate as the “easy button” for all things wireless by providing a full suite of services to design, build, modify and maintain the infrastructure for wireless networks all under a single roof. Centerline Solutions offices are located in Colorado, Arizona,

Washington, Oregon, New York, Florida, Georgia and Hawaii, from which our in-house staff of wireless experts handle projects for clients including all the major wireless providers, regional wireless carriers, equipment manufacturers, tower owners, government agencies and private industries.
