

CLEVELAND ASHRAE NEWSLETTER

June 2010

THE PRESIDENT'S CORNER

Special June Issue!

BY ROBERT LANEVE

Just when I thought I was finished with my column in May...one more request has surfaced...the **June Newsletter!** Since my last correspondence in May, we still do not know if LeBron is staying or going, our Cleveland Indians were almost part of a perfect game (or at least should have been!) and we had another great June golf outing. Thank you to Ken Borah and the Karpinski Clan for all their efforts in assembling our outing. **Remember...we have our Research Outing on August 30, 2010!** During our May board meeting, we had nearly 20 committee reports. Thank you to all committee chairmen who were able to attend and provide an update on their committee work; our chapter is alive and well. During the 2010-11 year, perhaps you would like to be involved with our Science Fair Judging, Meeting Host, Engineer's Week, YEA Group or Social Committee? This time, I think this is really my last Presidential Column; to our next Chapter President, Billy Kodosky: It's all yours!

MAY MEETING RECAP

Mr. Rick Long, one of our Chapter Past Presidents, presented at our last meeting of the 2009-10 year. Rick discussed "Changes in Energy, ASHRAE 189.1-2010, 90.1 and Energy Saving Strategies." Rick was well armed with many useful documents, standards and information obtained from his own research and from recent courses he attended at the January ASHRAE meeting in Orlando. Rick stressed changes in upcoming standards such as ASHRAE 90.1-2010 achieving 30% energy savings when compared to 90.1-2004 and ASHRAE standard 189.1 providing a 30% energy savings when compared to 90.1-2007. Rick also commented upon energy saving strategies such as reviewing part load conditions, implementing energy recovery, use of chilled beams, displacement ventilation, wind systems and solar systems. Rick provided an energetic and informative presentation. Thank you Rick for your time and dedication to chapter!

ASHRAE Scholarship Application

If you know of someone who is actively attending college to earn a mechanical or architectural engineering degree at a Northeast Ohio University or out of the area but is from the Northeast Ohio area, please point them in a direction of a Sal Triana Scholarship possibility. The intent of this scholarship is to help those engineering students seeking to someday make a career in the HVAC consulting/engineering/sales businesses get through the financial struggles of a higher education.

Applications can be found on the Cleveland ASHRAE Website and e-mailed to kborah@karpinskieng.com. If you have any questions please feel free to contact Ken Borah at **216-391-3700**.

IN THE NEWS...

Save the Date!

Board of governors, committee members, and past chapter presidents should save the date for the **ASHRAE Steak Roast** on **July 20th, 2010** at the **Lakeside Yacht Club**. Formal invites to follow.

Cleveland ASHRAE Obituaries

Robert E. Taylor, Fellow grade Member of ASHRAE, died May 20, 2010 at Judson Park in Cleveland at age 87. Bob was well known for his strong advocacy of fire safety, and had much to teach about smoke control in building design, based on his investigations of major fires nationwide. He graduated from Cleveland Heights High School and Wooster College, served in the infantry in Europe in WWII, and wrote the article in the military newspaper Stars and Stripes about the German surrender. After the War, he started at Fuller and Smith and Ross, a large advertising agency in Playhouse Square, and then joined Republic Steel's marketing department. Some years later, he and Brooks Semple of Virginia founded Smoke/Fire Risk Management, Inc., as Fire Protection Consultants. Bob was an avid fire buff, who told of riding to fires with the Shaker Heights Fire Department. He also served as President of the Shaker Heights Historical Society, and was proud of ancestors who built the Preyer house (the oldest remaining structure in Cleveland Heights) surrounded by extensive vineyards. Bob's funeral was at the Fairmont Presbyterian Church on Saturday, May 29, 2010.

He is survived by his wife of 62 years, Mary Ann; three daughters, and seven grandchildren.

ASHRAE Research Promotion

The Cleveland Chapter would like to thank everyone that has contributed to ASHRAE research and promotion this year. We are still below our goal and ask for any help we may get to close the gap and continue contributing to the numerous ASHRAE funded projects going on in our area. The Cleveland Chapter is looking to help aid the Research department in designing and coming up with new ideas, methods and standards that will make all our lives easier.

These projects help all of us in our efforts to develop highly efficient and top quality designs. Without these standards and research programs we may be more vulnerable to problems that occur in the field. Any donation amount helps contribute to these programs, with a \$100 donation you are recognized as a Honor Role Contributor.

-ASHRAE Research Promotion Chair for the Cleveland Chapter
Bob Chmielewski

ASHRAE MEMBERSHIP PROMOTION GOLF OUTING

DONORS

Cleveland ASHRAE extends its thanks to all of
the 2010 ASHRAE Membership Promotion
Golf Outing Door Prize Donors:

Air Control Products
Allied Equipment
D.B. Johnson
Engineered Air
Fulton & Associates
Honeywell
JACCO & Associates
Johnson Controls Inc.
Ketchum & Walton
Liebert/Emerson Network Power
Mussun Sales
Pier Associates
Refrigeration Sales Corp.
R.L. Deppmann
TH Martin
Victaulic
Wadsworth Slawson

Beverage Sponsors:

Carrier Corp.
Karpinski Engineering
Mastroianni HVAC
Mussun Sales

Congratulations to **Lou Joseph** (pictured right). He won the ASHRAE Membership Promotion Golf Outing's Gardiner Trane Trophy for the 2nd year in a row with a score of 75.

Thanks to all those who participated.
Over \$3,000 was raised for the **Sal Triana Scholarship!**
