ORGANIZER **Neni Panourgía**

INTERJECTORS **Rajat Singh and Mercedes Villalba**

COMMENTATORS **Stathis Gourgouris and Eileen Gillooly**

THE AGING SERIES thinks about the problems, constraints, and challenges that populate the notion of "aging" – from the hospital to the street. Does "aging" have any meaning beyond analytical? Is it an ontology, is it a circumstance, or is it an epistemology? Can we speak of "aging" as a process or as a state-of-being?
