## PROFESSIONAL EXPERIENCE

### UBER & SCAD COLLABORATION // UX Designer *present // Savannah, GA*

SCAD is collaborating with Uber to assist in the research and development of concepts for a **common cabin interior user experience** and reimagine the "Vertiport" and its role at the intersection of vehicles, people, architecture, and airspace across a variety of vehicle types that will ultimately inform the development of **hundreds of thousands** of electric VTOL aircraft on the **Uber Elevate network globally**.

### INTUIT // Interaction Designer *Summer 2017 // San Diego, CA*

Worked on the One Intuit Identity: Security team to help create a **seamless flow** through the entire authentication experience that **affects millions of users daily**. Created user flows for the sign in, create account & account recovery experiences and built a **prototype** to test potential features for the **future of a new cornerstone product at Intuit**. Also assisted with decisions for the new Intuit Design System.

### LIVE4LIFE MEDIA // Freelance Design & Consultant *2015-16 // Dallas, TX*

Created **better usability** on the Heart Failure webpages that are used globally. Focused on the individual client and their needs for the site.

## ACCOMPLISHMENTS

### Red Dot Communication Award 2017 UX Award Winner 2017// Seedly Project *2017 // SCAD*

**Problem:** With an increasing population, the current food supply will not be able to support the generations of the future.

**Solution:** Seedly is a wearable necklace for children to help them learn how to continually grow and plant seeds every 2 weeks. If a seed is planted every 2 weeks for a year, each child can add 26 food producing plants to the ecosystem.

This project was chosen out of **.8% of all submissions**.

### UX Award Finalist 2017 // Teddy Project *2017 // SCAD*

**Problem:** Hospitals and ambulances can be extremely stressful experiences for children. Doctors and EMTs spend **valuable time** offering emotional support to their patient.

**Solution:** Teddy uses **Mixed reality and AI** to inspire hope, create a relaxing environment and collect **useful data** for doctors and EMTs.

### NYE Times Square Advertisement *2016 // Dallas, TX*

I was given the **opportunity** to design and create direct an advertisement for The American Heart Association. This ad was showcased in Times Square for New Years Eve and the entire month of December.

## SIDE HUSTLE

### Features Professional Photographer *2016 // Savannah, GA*

Photos were **featured** on accounts with **heavy influence**.

Fashion photography was posted by @FASHIONBOMBAILY (1m), and @SCADFASHION (4.7k).

Motorcycle photography was published in an article and posted by @DIMECITYCYCLES (70.9k).

## EDUCATION

SAVANNAH COLLEGE  
OF ART AND DESIGN  
B.F.A. USER EXPERIENCE DESIGN  
SAVANNAH, GA | EXPECTED 2018

### DEANS LIST

Tested my **work ethic** by maintaining a 3.5 GPA while taking 20 hours per quarter for 6 quarters and maintaining a **social life balance**.

## INVOLVEMENT

### Chief Communication Officer of FLUX (UX Club) 2017

Project manager of Ambassador/Mentor Program. Setting agenda and coordinating ambassador's promotional events. Developing recruiting strategy and coordinating club growth as we pass on the leadership this year.

### Vice President of Colleges Against Cancer (CAC) 2017

I stepped up to lead the team in a new, more productive direction through putting into action new communication systems and organizing events, fundraisers, and bi-weekly meetings.
