Logan City School District

Electronic Device Accident Protection Plan

Logan City School District (LCSD) is providing and administering an accident protection as part of our current digital learning initiative. Enrollment in this plan is required for anyone planning to take a school district electronic device home who has not otherwise provided evidence of coverage that is acceptable to the district and equal to or greater than what is indicated in this agreement. Anyone without coverage is expected to use electronic devices on campus only, following the conditions and direction given in the LCSD Responsible Use Agreement. This plan covers “accidental damage” to the electronic device and is designed to limit individual financial responsibility for any damage as described in the coverage section below. Each school year the non-refundable annual premium begins coverage for all electronic devices provided by the school district for use by individual staff members or students; however, damage/repair deductibles will be applied for each electronic device separately. In addition each electronic device is covered under a manufacturer warranty that covers the normal operation of the electronic device to ensure that it is functioning properly.

**I WILL participate** in the Logan City School District's Electronic Device Accident Protection Plan. I agree to the provisions outlined in the policy terms and understand that:

- Enrollment in this program is required to take school district electronic device off school premises.
- The policy only covers the school issued electronic device and does not cover the charger or case.
- This policy does not cover cosmetic damage that does not impair the use of the electronic device; including, but not limited to: scratches, dents, and broken plastic parts or connection ports.
- Deductibles are in place based on occurrences in the current school year. Claims from a prior school year are not used in calculating the deductible.
- Damage as a result of a violation of the Electronic Device User Agreement is not covered; including, but is not limited to: dishonest, fraudulent, intentional, negligent, or criminal acts.
- Damage to the device is still the responsibility of the individual employee or student.
- Liability is limited to the replacement/repair of the device; no additional liability is implied or assumed.
- Opening the casing of the device to expose its internal components or hacking the operating system voids warranties and is not covered by this policy. Physically tampering with or hacking the operating system in an attempt to modify a device removes manufacturer protections.
- Devices covered by this protection plan must be in an approved case and storage bag. Damage that occurs in transit to or from the school site or school activities when the device is not housed in an approved case and bag is not covered under this policy.
- The enrollment cost is non-refundable.

**I choose NOT to participate** in the Logan City School District Electronic Device Accident Protection Plan. I understand that an electronic device will still be issued for use at school, but that it may not leave school property. Intentional damage to an electronic device requiring repair is still the responsibility of the employee or student/family.
