

The GMCBA was started in 2012 to ensure the needs and opinions of Mid City business owners were represented at the City and State level. We have monthly meetings at member businesses that feature informative speakers. Past speakers have included Susan Guidry, Latoya Cantrell and Jackie Clarkson of the New Orleans City Council. Past topics have included Healthcare Reform updates, Neighborhood Participation Project explanations, Project NOLA details, Bio-district discussions and many others. We also help new and current businesses navigate City permit requirements.
