

Poster Presentation Bio Slide Instructions

Texas A&M Plant Breeding Symposium

There are 2 versions of the biography slide template. One template that goes best with a dark background and the other that goes best with a light background.

Select one version to personalize.

Step 1: Personalizing the Background Image

1. Right click the background
2. Click on “Format background”
3. Add a picture, color or pattern that you feel represents you or your interests

Step 2: Personalizing the Text

1. Insert your name
2. Insert your program
3. Insert other information where it is supposed to be on the slide

DO NOT CHANGE THE FONT OR TEXT COLOR

Step 3: Personalizing the Profile Picture

- Right click on the picture
- Click on “Change picture”
- Select a picture of yourself that you are ok with the world seeing

Send only the slide that you wish to have shown during the symposium. Do not include the other template slides in the file you submit.

Please name the file: **lastname_firstname_bioslide**

For example: Masor_Laura_bioslide

Please email the file to the symposium graduate student organizing committee at pbsymposium@gmail.com Please submit the bio slide at the time of signing-up for the poster presentation competition.

DO NOT FASHION YOUR OWN SLIDE. The slides need to be all the same format with only changes to profile picture, text, and background image. Please contact Smit Dhakal, Smit.Dhakal@ag.tamu.edu, if you have questions or need help.
