MULTI-FAMILY
The Pennwest “System Built” method of construction has redefined Multi Family Housing. “System Building” reduces build time while maximizing value. Whether an elegant Duplex or sophisticated Townhouse all Pennwest designs represent the ultimate in style, economy, efficiency and quality.

Every home is built in a controlled environment, out of the elements, where the highest standards of quality control are maintained. No longer do you have to contend with weather delays and sub contractor delays. Primary components arrive 85% complete with site preparation taking place concurrently with component construction. Completion time is reduced by up to 50%. Faster construction time means quicker occupancy.

Whether you design your own floor plan or use one of ours, Pennwest will simplify the construction process, make you more productive, eliminate worry and increase your bottom line.
