

GRASSHOPPER AND MORMON CRICKET SUPPRESSION PROGRAMS  
ENVIRONMENTAL ASSESSMENT  
AVAILABLE FOR REVIEW AND COMMENT

United States Department of Agriculture, Animal and Plant Health Inspection Service (APHIS) is making available for public review and comment an Environmental Assessment(EA) No.ID-16-01, Grasshopper and Mormon Cricket Suppression Program for Southern Idaho. The EA considers four alternatives for Mormon cricket and grasshopper suppression on federally managed rangelands in Idaho. The preferred alternative would utilize carbaryl bait, diflubenzuron or Malathion spray applied by air or ground.

The EA is available from: USDA APHIS PPQ, 9118 W. Blackeagle Dr., Boise, ID 83709. Fax requests to: 208-378-5794, or call 208-373-1600. The EA is also available online at <http://www.agri.state.id.us/> Follow the link to plants and insects, Grasshopper/Mormon cricket control program, reports & publications. A public comment period on the EA will continue until April 15, 2016. Comments should be sent to: USDA APHIS PPQ, 9118 W. Blackeagle Drive, Boise ID 83709, or via email to [Brian.L.Marschman@aphis.usda.gov](mailto:Brian.L.Marschman@aphis.usda.gov).
