
Heide sculpture park music activity sheet #2: Active and energetic time!

Come on a musical adventure in Heide's sculpture park with Between Footsteps.

The Between Footsteps artists; Elissa Goodrich, Cressida Bradley and friends, have created six percussive music tracks inspired by six of Heide's sculptures.

Download the music from www.betweenfootsteps.com

Find the sculptures and listen to their matching tracks. Use this activity sheet to create great performances, dances, stories and more!

Spot #1: Running Man by Rick Amor. Track #1: Running Man

Make a movement on the spot that sounds like the music. Take a photo of yourself making this movement.

Spot #2: Crescent House by Andrew Burns. Track #2 Theatre of Stars

Listen to the music and act out an adventure you might go in this house when it's night-time. Make it into a film!

Spot #3: Theoretical Matter by Neil Taylor. Track #3 Rust and Endless Windows

How many windows can you look through and what can you see, hear and touch?

Spot #4: Basket and Wave by Dennis Oppenheim. Track #4 Dreamweave Waves

Use what is around you to make sounds like this music and sculpture. You could use your hands, your body, dried leaves from the ground, seed pods, or blow into the tubes of the sculpture. Make a recording of your music.

Spot #5: Under felt-donkey by Yvonne Kendall. Track #5 Dance of The Little Donkey

Can you dance the little donkey song? Make a video of your dance!

Spot #6: Rings of Saturn by Inge King. Track #6 Spheres and Planets

Make a circle with your fingers like a telescope and find a spot that looks like the sculpture is floating in space. How does the music match what you're seeing?
