## COP23 GCA High Level Engagement Events on Resilience

We are pleased to announce three High Level Engagement Events on Resilience under the Marrakech Partnership on Global Climate Action (GCA), convened by partners of the UN Climate Resilience Initiative (A2R).

These events will bring together political leadership, senior policy and decision makers, private sector, international organizations and civil society to discuss the priority climate actions needed to build the resilience of the people most vulnerable to climate impacts, and thereby help deliver the Paris Agreement, the Sendai Framework for Disaster Risk Reduction, and for the 2030 Agenda for Sustainable Development.

### “Unblocking investment into climate resilience”

13 November, 13:15 – 14:45, Bonn Zone – Roundtable Discussion

### “Why climate resilience matters for people in SIDS and other vulnerable countries”

14 November, 11:30 – 13:00, Bonn Zone – Panel Discussion

### “Working with nature to build climate resilient and sustainable development”

14 November, 15:00 – 16:30, Bonn Zone – Panel Discussion

*Please save the dates in your calendar and kindly note that attendance is only possible for COP23 participants with access to the Bonn zone. For further information please contact [info@a2rinitiative.org](mailto:info@a2rinitiative.org)*
