

## LUXURY RENTAL FURNITURE AND BOUTIQUE EVENT DESIGN

Eventos Artesanos is a luxury wedding rental and event design company born out of the belief that destination weddings are enhanced when they incorporate items and products made in country by local artisans. With a surplus of beautiful hardwoods found throughout Costa Rica, our goal is to fuse the rusticity of natural wood with polished and modern furniture design.

In addition to providing wedding furnishings & event lighting, Eventos Artesanos also provides artistic and original floral creations throughout Costa Rica.

## TEAK WEDDING COLLECTION

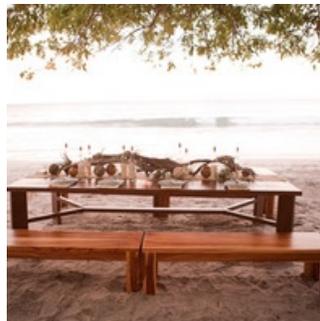

By building our collection using only the finest Costa Rican teak with items made by local artisans, Eventos Artesanos has established a unique hardwood product line built specifically with weddings and events in mind.

The items in our teak collection feature a modern minimalist design that is perfect for social conscious couples who are looking to incorporate Costa Rican fine craft throughout their big day.

### TEAK COCKTAIL TABLES

These handmade cocktail tables highlight the beautiful grain of teak wood by showcasing the side profile as well as the cross section profile of the wood grain. The sturdy metal base and glass top add a modern element to the look.

### TEAK BENCHES

Benches tend to work better than chairs for weddings that take place in the sand as their wider base provides a very stable platform. These stylish and modern benches make for great ceremony seating in any setting.

### TEAK FLORAL BOXES

Our teak floral boxes come in two sizes, rectangular and cubes. They add a beautiful, rustic element to any tablescape. The boxes are watertight and are designed to fit oasis foam for artistic floral centerpieces.

### TEAK DINING TABLES

The teak dining tables are designed to accommodate 6 guests when set up individually, or fit perfectly together to make dramatic long head tables. We recommend pairing the table with a muted toned table runner.

## BEACH CHIC COLLECTION

For those looking for a fun and fresh look for this wedding season, we introduce our Beach Chic wedding collection. With this collection, it is all about texture, washed out colors and rustic accents.

### HANDMADE TEEPEE

Our custom built Teepee features a cream heavy duty outer fabric and creates a fun space and amazing backdrop for wedding portraits. It also makes a comfy getaway and an amazing conversation starter.

### WILDFLOWER FLORAL DESIGN

Luscious and loose blooms define this style. Wildflower floral designs do not require the use of sunflowers. In fact, garden abundant look is best achieved with minimal varieties of flowers and muted colors.

## EVENT LIGHTING AND DRAPING

After the sun sets on the warm waters of the Pacific Ocean, soft accent lighting will now define the space and will help to create a fun and festive mood for the wedding couple and their guests.

By using a combination of fine fabric draping and exotic color light accents, any space can be completely transformed into a setting fit for celebration.

## FLORAL AND EVENT DESIGN

At Eventos Artesanos, our foundation is in design. This is reflected in the custom furnishings that we build as well as the floral and event designs that we create. With 20 years of combined experience in wedding design under our belt, you can rest assured that our team can execute a full range of design challenges.

It is our goal to not only embody the event design concept, but also to incorporate local flora and fauna throughout the event space. By doing this, we help to insure that the freshest available product for our designs and the product can withstand the rigors of the intense tropical environment found throughout Costa Rica.

We understand that since the majority of guests spend a large portion of the reception at the dining table, this is a very important area to focus our design effort. By fully integrating our rentals and design elements, we create a seamless and natural design flow to fit your individual style.

## CUSTOM CHALK ART

We love incorporating stylish accents throughout the entire event space. From seating charts to bar designs, our custom chalkboards get your message across to your guests in style.
