*"A ship is always safe at shore, but that is not what it's built for" - Albert Einstein*

When I took the leap into the wedding industry I had no idea what I was getting myself into! Little did I know that I would fall in love with my career and the fantastic people I have the opportunity to meet and work with every day. I absolutely love every little detail that goes into making the BIG day perfect for so many happy couples. Being born and raised here in Houston, I love everything about this city and its surrounding areas. From the shores of Galveston, to Midtown, all the way through the Woodlands. After years of planning in this amazing industry, this is where I feel at home.

Most days you can find me in a cute little coffee shop, hair in a ponytail and glasses on, working hard to make your dreams come true! I thrive in the organization of all things wedding. Being able to take on your special day with the attention to detail and organization that it deserves is my favorite thing! It is in those small details that I

believe the true beauty of a wedding lies. If you happen to catch me not working, I love to spend time with my family and friends. We love being outdoors, kayaking, fishing, wakeboarding, and playing at the beach. Anything that will get everyone out of the house! I also love a good Netflix binge, Stranger Things, Friends, and Gilmore Girls are among some of my favorites. Not to mention I own the entire collectors set of Harry Potter movies! I think if I were to plan my dream wedding it would be at Harry Potter World in Orlando. I find inspiration in a few places, the biggest one being travel! I absolutely love to travel. On my short list for the next three years are Europe, Fiji, and Cabo.

I am so excited that you are considering Simply Elegant and the Houston team to help make your day perfect and we look forward to working with you!
