RE: The Fire Road and trail behind Via Elevado

Dear Mr. D'Angelo,

The Board of Directors of Palos Verdes Homes Association has been made aware of the unwanted activity behind the homes located on Via Elevado. A proposal outlining a project to relocate public activity at the rear has been brought before the board which outlined their solutions to improve the impact on the residents in this area.

The Board of Directors supports the concept of the project, as it would improve the privacy, security and quiet enjoyment of the neighboring properties. The Board's funding will follow a presentation of the satisfactory final concept that will be supported and approved by the City of Palos Verdes Estates.

Respectfully submitted,

Mark C. Paullin, President
Palos Verdes Homes Association

Cc: Residents on Via Elevado
