Blue Ridge Research and Consulting, LLC (BRRC) is an acoustical engineering firm focused on critical noise and vibration challenges. Our team’s experience covers the full spectrum of environmental noise issues, ranging from military and civilian environmental noise studies to the design of custom state-of-the-art measurement systems and mission planning tools.

ABOUT US

ADVANCED SCIENCE, NOT PROFIT, IS OUR COMPANY’S PROPULSION.
Join our team

Enjoy the picturesque mountains of Western North Carolina as you develop your skills in a mentorship environment. Analyze unique challenges for military, space, and industry clients within a high-energy, positive culture.

We look forward to hearing from you.
