DIGITAL CLINICAL THERMOMETER
INSTRUCTIONS FOR USE
Please read carefully before using

FEATURES
1. Easy to read digital LCD (liquid crystal display).
2. Compact, accurate and durable LSI (large scale integration) device.
3. Temperatures can be taken under the tongue (oral use) or under the arm (axillary use).
4. It is suggested that rectal temperatures be taken on infants only when axillary use is inconvenient.
5. Very sensitive device, quick to obtain results. Reads in around 30 seconds.
6. If the thermometer is inadvertently left on after temperature stabilization, it will automatically shut off after 3 minutes.
7. Small, light weight, universal use for the whole family, especially ideal for children.
8. ABS resin body presents no hazard compared to broken mercury glass thermometers.
9. Low battery indicator: when the symbol  appears, the battery needs to be replaced.
10. The unit is water resistant.

SPECIFICATION

Range
90°F to 109°F (32.0°C to 43.0°C)
90.8°F to 100°F (32.5°C to 37.7°C)

Resolution
±0.1°F (±0.1°C)

Accuracy
±0.9°F (±0.5°C) at 98.0°F (37.0°C)
±1.0°F (±0.6°C) at 99.0°F (37.3°C)

Power: 0.15 milliwatts in measurement mode

Battery Life
More than 500 hours of continuous operation

Dimensions
Approx. 2.5 by 1.7 by 0.5 inches

Weight
Approx. 15 grams including battery

Repeatability
Approx. ±0.5°F for repeatable signal when peak temperature reached

Working Conditions
Temperature: 50°F to 104°F (10° to 40°C)
Humidity: 10% - 90% non-condensing

Reliability
Storage Conditions: Temperature: -13°F to 131°F (-25° to 55°C)

Guarantee of Quality

Product classification
Type BF: equipment

PRECAUTIONS
1. Do not immerse the probe. Instead, clean the unit by wiping it with a dry cloth and disconnect the probe with isopropyl (rubbing) alcohol.
2. Do not drop the thermometer or expose it to heavy impact. The unit is not impact-proof.
3. Do not bend or lose the probe.
4. Do not store the unit under direct sunlight, at a high temperature, in high humidity or dust. Performance may be deteriorated.
5. Stop using the thermometer if it operates erratically or if the display malfunctions.
7. Clean the thermometer probe before storing.
8. Do not attempt to disassemble the device except to replace the battery.
9. If the thermometer has been stored at below-freezing temperatures, allow the thermometer to warm to room temperature before using.
10. Performance of the device may be degraded if operated outside stated temperature and humidity conditions or if the patient’s temperature is below the ambient (room) temperature.

BATTERY REPLACEMENT
1. The battery needs to be replaced.
2. Use a coin, unless the battery cover by turning it counter-clockwise and carefully remove the battery with the same metal instrument from the battery holder. Avoid using any sharp metal object in this operation.
3. Discard old battery properly.
4. Place a new battery in the chamber.
5. Using a coin, replace and secure the battery cover by turning it clockwise.

CLEANING INSTRUCTIONS
To clean the thermometer, wash the tip with a solution of mild detergent and cold water.

HOW TO USE
1. Dissect the probe with isopropyl (rubbing) alcohol before using.
2. Deaccess the on/off button. The display will turn off.
3. Release the power switch, and the display will show [0°C (°C)]
4. Place the probe in the appropriate position (oral or axillary use).
5. Once the device is in contact with the body, the display shows the temperature (approximately 30 seconds). The display shows 30°C (°C) a temperature reading.
6. The unit will automatically turn off in 3 minutes. However, to prolong battery life, it is best to turn off the thermometer once the temperature has been noted.

LIMITED WARRANTY
This thermometer is guaranteed for one year from the date of purchase against manufacturer’s defect under normal household use. Defects, which become evident within the first year of ownership, will be repaired or replaced, at Cvs Health’s option, without charge. This warranty is void if the product has been altered, tampered with, or if the results of any repairs are not acceptable to Cvs Health. This warranty does not apply to damage caused by misuse, abuse, accidents, or any other circumstances beyond our control.

POTENTIAL FOR RADIO/TELEVISION INTERFERENCE (for U.S. Only)
Operation is subject to the following conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
