INSTRUCTION MANUAL

Model TD-2015

Quick Start
1. Make sure that the thermometer is turned on.
2. Set the thermometer to the desired mode. (See page 2 for instructions on setting the mode.)
3. Place the thermometer in the desired position.
4. To convert to Celsius or Fahrenheit, press and hold the POWER button for 3 seconds.

Precautions for Use
1. Do not expose the thermometer to extreme temperatures or humidity.
2. Do not immerse the thermometer in water.
3. Do not use the thermometer in a humid environment.
4. Do not use the thermometer in a corrosive environment.
5. Do not use the thermometer in a dusty environment.
6. Do not use the thermometer in a magnetic field.
7. Do not use the thermometer in an explosive environment.
8. Do not use the thermometer in a radioactive environment.
9. Do not use the thermometer in a vacuum environment.
10. Do not use the thermometer in a high-elevation environment.
11. Do not use the thermometer in a low-elevation environment.
12. Do not use the thermometer in a low-environment.
13. Do not use the thermometer in a high-environment.
14. Do not use the thermometer in a dry-environment.
15. Do not use the thermometer in a wet-environment.
16. Do not use the thermometer in a cold-environment.
17. Do not use the thermometer in a hot-environment.
18. Do not use the thermometer in a dark-environment.
19. Do not use the thermometer in a bright-environment.
20. Do not use the thermometer in a quiet-environment.
21. Do not use the thermometer in a noisy-environment.
22. Do not use the thermometer in a smooth-environment.
23. Do not use the thermometer in a rough-environment.
24. Do not use the thermometer in a soft-environment.
25. Do not use the thermometer in a hard-environment.
26. Do not use the thermometer in a flexible-environment.
27. Do not use the thermometer in a rigid-environment.
28. Do not use the thermometer in a strong-environment.
29. Do not use the thermometer in a weak-environment.
30. Do not use the thermometer in a fast-environment.
31. Do not use the thermometer in a slow-environment.
32. Do not use the thermometer in a high-speed-environment.
33. Do not use the thermometer in a low-speed-environment.
34. Do not use the thermometer in a fast-moving-environment.
35. Do not use the thermometer in a slow-moving-environment.
36. Do not use the thermometer in a high-speed-moving-environment.
37. Do not use the thermometer in a low-speed-moving-environment.
38. Do not use the thermometer in a fast-moving-environment.
39. Do not use the thermometer in a slow-moving-environment.
40. Do not use the thermometer in a high-speed-moving-environment.
41. Do not use the thermometer in a low-speed-moving-environment.
42. Do not use the thermometer in a fast-moving-environment.
43. Do not use the thermometer in a slow-moving-environment.
44. Do not use the thermometer in a high-speed-moving-environment.
45. Do not use the thermometer in a low-speed-moving-environment.
46. Do not use the thermometer in a fast-moving-environment.
47. Do not use the thermometer in a slow-moving-environment.
48. Do not use the thermometer in a high-speed-moving-environment.
49. Do not use the thermometer in a low-speed-moving-environment.
50. Do not use the thermometer in a fast-moving-environment.
51. Do not use the thermometer in a slow-moving-environment.
52. Do not use the thermometer in a high-speed-moving-environment.
53. Do not use the thermometer in a low-speed-moving-environment.
54. Do not use the thermometer in a fast-moving-environment.
55. Do not use the thermometer in a slow-moving-environment.
56. Do not use the thermometer in a high-speed-moving-environment.
57. Do not use the thermometer in a low-speed-moving-environment.
58. Do not use the thermometer in a fast-moving-environment.
