This basal digital thermometer is intended to measure the human body temperature for women. It’s precise digital display is for use in a household environment.

1. For battery disposition, please consider your local and state laws and regulations.

2. Discard old battery, out of reach of young children. Swallowing the battery may be fatal.

BATTERY REPLACEMENT

1. Push and slide the battery cover as indicated below to open.
2. Insert a new battery into the recessed notch to carefully lift the battery up and out of the unit. Do not lift the battery more than necessary.
3. Replace the battery cover and push it firmly. It is best to turn off the thermometer by pressing the ON/OFF button once the battery has been replaced.

ORAL USE

1. Place the probe well under the patient’s tongue with the probe sensor facing upwards. The temperature will be measured after approximately 30 seconds.
2. The temperature will be displayed on the bottom of the display.
3. Never place the probe to the lower part of the mouth, which is the bottom of the cheek.
4. If the sensor is lower than the temperature, it will be automatically shut off within approximately 3 minutes.
5. If the sensor is higher than the temperature, it will still be displayed on the display window.

PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE USING.

Note: This is a basal digital thermometer, not to be used as a clinical thermometer.

PARTS DESCRIPTION

1. Headset Jack
2. Power Button
3. Display Window
4. Self-detection error
5. Temperature is lower than measuring range
6. Temperature is higher than measuring range
7. Clock mode is off
8. Export

PRECAUTION

1. Do not boil the probe. Instead, clean the unit and wipe it with a dry cloth and discard the probe with rubbing alcohol. See cleaning instructions for details.
2. Do not store thermometer or other parts in heavy shock. The unit is not shock-proof.
3. This unit is not water proof. Sensor and probe are water resistant.
4. Do not leave the probe inside the probe cover and do not use on the probe in measuring mode.
5. After using, clean the thermometer and store it in the case in case.
6. Do not store the unit in direct sunlight. At a high temperature in humid or dusty environment.
7. Performance may be degraded.
8. Stop using the thermometer if it operates erratically or if the display malfunctions.
9. Do not attempt to disassemble the unit except to replace the battery.
10. The accuracy of this product is ±0.2°F (98~102°F) and ±0.1°C (37~39°C) (See below).

BATTERY LIFE

1. Temperature before using.
2. If the battery is low, the symbol “L°F” (L°C) will appear on the display. The battery needs to be replaced.
3. The unit will automatically turn off in approx. 3 minutes. However, to prolong battery life, it is best to turn off the thermometer by pressing the ON/OFF button once the temperature has been noted.

LIMITED WARRANTY

This thermometer (battery Included) is warranted for one year from the date of purchase against manufacturer’s defect under normal, household use and without evidence of tampering.

WARRANTY EXCLUSIONS:

- Evidence of improper handling or storing, such as dropping, electric shock, heat, liquid or cleaner damage.
- Natural disasters (e.g., fire, flood, earthquake, lightning)
- No receipt or proof of purchase showing date of purchase
- If the unit is used in a manner inconsistent with the instructions in this manual
- If the unit is used in a manner that causes harm or damage

FCC STATEMENT

NOTE: POTENTIAL FOR RADIO TELEVISION INTERFERENCE (for USA Only)

- Operation is subject to the following conditions:
  - This device may not cause harmful interference
  - This device must accept any interference received, including interference that may cause undesired operation.

- Operation is subject to the following conditions:
  - This device may not cause harmful interference
  - This device must accept any interference received, including interference that may cause undesired operation.
